# PUT INDUSTRY IN PLACE OF RELIEF AT ST. PIERRE

## Put Industry In Place Of Relief Urge B.C. Cities

Government and Municipal Heads in Accord on Opposition to Relief as Permanent Institution at Conference This Morning

Delegates Seek Better Treatment from the Provincial Government and Premier Says He Is Glad They Want Industry to Replace "Accursed Dole System"

Representatives of the Union of B.C. Municipalities were in accord with Premier Pattullo and members of his cabinet this morning at a conference held in the Parliament Buildings that British Columbia's objective must be to get away from the present relief system and replace it with productive industry to put men at work.

The hardships worked on the cities by loss of municipal grants was dealt with and a plea for their restoration voiced.

Following a meeting of the executive of the union thirty representatives placed their views and recommendations before a full meeting of the cabinet, and at the conclusion applauded the remark of the Premier that irrespective of political beliefs co-operation must be the keynote of the relations between the government and the cities.

"I am glad to note that you want industry to replace the accursed dole system," Premier Pattullo remarked.

First of the recommendations made by the union was one calling for every effort to be made to reduce unemployment to the minimum by the early beginning of major public undertakings of a national or provincial character.

The union urged that no action should be taken which would tend to establish the present system of relief as a permanent institution.

Regulation of agricultural marketing conditions, protection of industry and production, contributory unemployment insurance creation of a national or provincial board with wide powers to control all industries, both public and private, were recommended.

The union recommended that a commission be appointed to administer and co-ordinate relief.

On the subject of public works undertakings the union recommended that:

"We would view with concern any system of temporary or artificial public works such as might be undertaken in cities or municipalities, which, when completed, must necessarily be continually repeated by further works of

## REPORTED HEADING JAPAN FASCISTS

Tokyo, Dec. 8.—Yuseko Matsuoka, Japan's fiery spokesman at the League of Nations sessions which preceded his country's withdrawal last March, formally resigned today from membership in the Seiyukai, majority party in the Diet.

At the same time, he resigned his seat in the House. He said he wanted to cut all political ties.

Political writers asserted Mr. Matsuoka had ambitions to head a fresh Fascist movement, appealing especially to patriotic youth elements.

HON. C. DALTON CRITICALLY ILL

Charlotteville, P.E.I., Dec. 8.—"Still unconscious, but slightly stronger," said a physician's report on the condition early today of Hon. Charles Dalton, Lieutenant-Governor of Prince Edward Island.

Mr. Dalton, in his eighty-third year, is said by his doctors to have little chance of recovery from an attack of pleural pneumonia which developed during his confinement in a hospital with a fractured hip-bone. For more than a month since he slipped on an

## Lt.-Col. Monk Visits Montreal Mayor

Montreal, Dec. 8.—Lieut.-Col. T. B. Monk of Victoria, who represented the mayor and city council of the British Columbia capital at the funeral of Gen. Sir Arthur Currie, paid a courtesy visit to Mayor Fernand Blais, M.P., at the city hall here. Lieut.-Col. Monk commands the Fifth Brigade, Canadian Garrison Artillery, of which Sir Arthur Currie was head before the Great War.

## SNOW IN LONDON

London, Dec. 8 (Canadian Press).—London had some snow to-day for the first time this winter, but although the weather remained cold generally, there was no expectation the country would become frost-bound. Other parts of England had heavy snowfalls last month.

## Stratford, Ont., Veterans Give Up War Medals

As Protection Against Menace of War They Send Them to Twenty-one Nations to Be Melted Down and Used in Payment of Debts

## B.C. VETERANS TO KEEP THEIR HONORS

Vancouver, Dec. 8.—Members of the Stratford, Ont., branch of the Canadian Legion who have surrendered their victory medals as a protest against nationalism and armaments have been "badly misguided," in the opinion of Col. W. S. Bussell, president of British Columbia provincial command of the Legion.

"There must have been some insidious hand working behind such an action," Col. Bussell said today. "We could not consider taking such action in British Columbia."

Canadian Press

Stratford, Ont., Dec. 8.—Fifteen years after their victory in the war which was to end war, twenty-one members of the Stratford branch of the Canadian Legion yesterday evening surrendered their victory medals with a request they be sent to the Finance Ministers of twenty-one nations—Allied and former enemy alike—to be melted down into metal "and swallowed with all other rewards of armed conflict in payment of the war costs of the world."

The gesture of the Stratford veterans was one of protest and despair that the forces against which they fought from 1914 to 1918 should again flourish. The medals will be sent to the finance ministers of Canada, Great Britain, Australia, New Zealand, South Africa, France, Russia, Italy, Germany, Turkey, Austria, Bulgaria, Roumania, the United States, Japan, Portugal, Belgium, Greece, Serbia, Yugoslavia, and India.

MEMORIES AND DEBTS

The following message, in English, German and French, will accompany each medal:

"Fifteen years ago we laid down our arms, victorious over the forces of greed, nationalism, armament and war. Our victory was rewarded with these victory medals. To-day nationalism flourishes, greed is rampant, armaments menace our homes and war impends. The fruits of our victory have vanished. There remain to us who fought nothing but our memories, our medals and the war debts."

NO CALGARY MOVE

Calgary, Dec. 8.—Officers of veterans' associations in Calgary do not expect to introduce legislation at the next session of the Legislature to annul the agreement between the B.C. Government and the Ladner Bridge Company.

## NEW INDUSTRIAL BOARDS IN U.S.

Associated Press

Washington, Dec. 8.—The National Recovery Administration announced today that it was planning to appoint labor members to authorities administering codes, is working on a plan for the creation of governmental boards including labor and consumer representatives to observe industrial operation.

It was definitely understood today that the organized labor demand for a place with industrialists on the committee which actually governs coded industries has been turned down.

This led to the new formula, still in an indefinite stage, by which labor, clamoring for a "partnership" with business under the industrial law, would be granted a front-seat among reviewing authorities.

LOW TARIFFS OR SECESSION

## Prairie Provinces and B.C. May Be Forced to Break Away, Farmers Told

Unless a drastic reduction is made soon in the whole scale of tariffs, the prairie provinces and possibly British Columbia may find it necessary for their continued existence to form a separate dominion, members of the Vancouver Island and Gulf Islands district of B.C. Farmers' Institutes were told at their annual meeting at the Parliament Buildings yesterday.

The remark was made by E. W. Neel, Cowichan, chairman of the district and member of the B.C. Advisory Board. He emphasized that he was voicing his personal views on the matter.

"General business in Canada is showing a slight improvement," he said. "On Vancouver Island the reopening of the mills and lumber camps has set new money in circulation and there is a more optimistic spirit as regards the future. There could not, however, be any real permanent betterment of conditions until the tariff system of Canada is planned along the lines of common sense and not only as it is at present the case, for the benefit of manufacturing interests."

"If Canada wants to sell her goods to England and other countries she must be prepared to buy their goods in return," proceeded Mr. Neel. "The tariff is the price of our goods and commodities, the greater the tribute which must be paid by the primary producer on account of the tariff, the less before stating secession might be necessary if a drastic tariff reduction was not brought about."

WELFARE FUND PASSED HALF-WAY MARK TO-DAY

At Noon Total Collected Was \$17,750.56; Small Donations Appreciated

The drive for funds for the welfare associations of Greater Victoria this morning passed the half-way mark of its \$35,000 objective as \$17,750.56 was added to the coffers and the total to date reached \$17,750.56.

The campaign committee, with F. E. Winslow as chairman and Alfred Carmichael as manager, this morning announced its appreciation of the contributions of the small subscribers.

The committee realizes that often the twenty-five cent or dollar subscriber means the person is going without some small necessity and the members feel that if everyone gave in the same spirit the objective would soon be realized.

In reply to several queries regarding the expense of the campaign, Mr. Carmichael explained this morning that if the \$35,000 objective was realized, less than two per cent. would be required for salaries and other expenses. Additional donations follow:

Brought forward, \$17,253.05; Mrs. Emma Jones, \$20; Mrs. W. H. Logan, \$5; H. Despard Trigg, \$10; H. B. R. 12; W. L. Morgan Fuel Co., \$10; Dr. S. P. Tolmie, \$5; Rev. A. M. Acheson-Lyle, \$5; E. H. Lineker, \$5; Mr. and Mrs. Gordon Campbell, \$10; Mrs. Ida May Ross, \$10; Mrs. W. E. Scott-Moncrieff, \$5; W. H. Bullock-Webster, \$15; F. W. Hartley, \$10; Mrs. Anderson, \$5; Mrs. John, \$5; Mrs. C. Martin, \$5; Balfour Nursing Home, \$5; Mrs. M. E. Simpson, \$5; Mrs. E. Lennox, \$5; I. M. Nodde, \$5; H. Bartholomew, \$5; Major G. Simpson, \$10; Mrs. J. C. O'Brien, \$5; H. M. C. S. Green, \$10; Pacific Salvage Co., \$10; and many others, bringing the total to \$17,750.56.

## SOON TO TAKE POST AT MOSCOW

While Maxim Litvinoff was nearing Moscow today on his return from the United States by way of Rome and Berlin, William C. Bullitt, above, was completing his preparations to take up his duties as first United States Ambassador to Russia, where the revolution of 1917. After Mr. Bullitt reaches Moscow he and M. Litvinoff are expected to have numerous lengthy talks in reorganizing affairs between the two republics.

## ARREST YOUTH WITH REVOLVER

## Provincial Police Apprehend Indian Boy Heading for United States

Provincial Police here yesterday afternoon arrested Fred Gus, seventeen-year-old Indian boy, reported to have run away from the Indian school at Alberni after having stolen money from his grandfather, and found him in possession of a .32 calibre automatic revolver and making plans to run away to the United States.

Headquarters here were notified of the lad's actions in the early afternoon and Corporal Sperry Cline and Constable Archie Carmichael effected the arrest when he was apprehended as he stepped from the afternoon train from up-Island.

On being questioned, the lad denied his identity and gave his name as Reynolds, but on being taken to a division office and being subjected to further questioning by Inspector Robert Owens admitted his identity. Search disclosed a revolver in his overcoat pocket.

The boy will be charged in the city juvenile court to-morrow. According to police he has a previous record and when arrested was serving a suspended sentence for theft in Alberni. He is alleged to have stolen \$10 from his grandfather before running away yesterday and about \$5 was found on him.

One of these coins, according to the record of Mrs. O'Reilly, dated back to 323 B.C. when Ptolemy I was the ruler of Egypt and another is from Cleopatra's time, about 130 years before the birth of Christ. The Ptolemy coin bears the picture of the king who came from Greece.

Mrs. O'Reilly has various Roman coins from the days of Galba, Nero, Claudius Caesar and Augustus Caesar. There are brass coins bearing the head of Seraphis, an Egyptian deity, and various other Roman emperors and she also has numerous ancient money pieces from India, Ceylon and Malta.

"They have been handed down in our family for generations," Mr. O'Reilly explained, "and while I cannot vouch for the exactness of the records they are all tagged with the dates when they were coined, according to the information we can get."

Another old Roman coin was produced by A. Bianco, 2941 Dewdney Avenue, who actually dug it up himself, while he was conducting over the site of an old Roman camp in Petite Saucerie, along the French-Italian frontier during a holiday trip to Europe. Beyond the fact that it bears a Roman emperor's head and is occasional in shape, there is no way of identifying it, however.

Shipping over a few centuries, the argument comes back to the comparatively modern money in bills such as a \$5 note issued in 1778 by Hall and Sellers, Virginia tobacco planters and made redeemable at their store. This is in the possession of J. B. Earle, 1060 Joan Crescent, who is somewhat of a coin collector himself. Among his collection are English halfpennies of 1872, a penny of 1774, silver coins of Spain from the same year, a rare U.S. five-cent silver piece of 1853, a Mexican dollar of 1832, and a copper coin from Spain of 1817.

## LOAN IS TREBLY OVERSUBSCRIBED

Washington, Dec. 8.—The United States treasury announced today that subscriptions on its \$500,000,000 one-year 2½ per cent issue exceeded that figure by nearly three times.

## NEED DAILY TAX AVERAGE \$3,485

81 per cent collection of current civic taxes, an average of \$3,485 a day must be taken into the city treasury until the end of the year, according to a comparison made by the treasury officials today.

With a 5 per cent penalty due on December 30, it is expected the figure will be reached. Although the collection to date is only a trifle more than 4 per cent short of the estimate this means approximately \$50,000.

Members of the finance committee and treasury officials are studying closely the effect of the change in graduation of the tax penalty and the fact that more than three-quarters of the levy has been collected before the major portion of the penalty is imposed is considered an indication that the taxpayers are willing to show co-operation by meeting their accounts at the earliest possible date.

## Liquor Problem May Be Before Premiers At Conference Soon

(Continued from Page 1)

Hope that return to normal economic conditions would mean renewal of prosperity for the liquor commissions is being blown to atoms by the situation in the United States.

"Over and above the unfortunate situation in which the provinces will be placed if they lose their American business," continued The Gazette, "it is pointed out by those who should know the facts the liquor itself will find that it will lose much of the handsome revenue which it draws from the provincial liquor commissions and the way of excise duties, customs and sales tax."

## BOOTLEG DANGER

"There is also the danger the bootleggers will return the compliment and instead of Canadian whisky going to the United States the much cheaper liquor of the United States—providing the news reports of comparatively low excise duties in that country are accurate—will flood this province and Canada generally."

## DRAW UP TAX SCALE

Washington, Dec. 8.—The special committee on alcohol, which has recommended Congress impose a \$2.00 a gallon on distilled spirits as compared with the present \$1.10 tax. The committee also recommended all beer be taxed \$5 a barrel, the same as the present \$2.25.

The present tax on beer of alcohol is \$2.00 a gallon, and all wine above twenty-four per cent, including brandies, \$2.00 a gallon, the same as for distilled spirits.

Sparkling wines not containing more than twenty-four per cent alcohol would pay eighty cents a gallon, while those over twenty-four per cent would be taxed \$2.00 a gallon.

The proposed rate of eighty cents a

gallon on natural sparkling wines is the same as in effect before prohibition.

Artificial sparkling wines containing not over twenty-four per cent alcohol would pay a forty cent a gallon tax.

The committee recommended an additional sixteen cents per gallon tax be assessed on blended and rectified spirits, bringing it to a total of \$2.76. The present law provides an additional thirty cents a gallon tax on rectified and blended liquor.

## CAN BRING BOTTLE HOME

Seattle, Dec. 8.—Under a ruling just announced by Collector of Customs Earl Haas, United States citizens returning from British Columbia or other foreign points, may now bring with them up to a quart of spirits or wine without penalty—but it must be declared.

This is permissible no oftener than once in thirty days, Haas said, and only where the acquisition of the liquor has been incidental to the trip.

## SHIPMENT FROM VANCOUVER

Seattle, Dec. 8.—What is said to be the first post-prohibition repeal liquor import permit to reach Seattle was received yesterday by the World Importers Inc. west coast representatives of the British Columbia Distillers and a number of British and European exporters.

It authorizes them to import 25,000 gallons of Scotch whisky and bourbon whisky and rum from Canada; 1,000 gallons of champagne from France; 1,500 gallons of different wines from England and France; 500 gallons of liquors from Holland and 500 gallons of whisky from Scotland.

## FOURTH BOAT IS MISSING

Johnston or Helge Jacobson, both of whom were aboard the Bella.

The boat reported lost on the east coast was the Della Reita, which left Vancouver on Monday night, December 4, with Reginald Holland, twenty-eight, and his sister, Margaret, seventeen, aboard. She is a thirty-foot craft powered with fifteen horsepower engines.

According to the Dominion Government, the Della Reita was last seen on December 4 on his way this afternoon with men from the Nitinat Cannery, to recover the body reported by the airplane.

The wreckage found was a white cabin with the markings E.O. 1629, a grey blanket and a pair of blue serge pants.

Meanwhile, with the extensive search instituted by Provincial Police and Dominion Government patrol boats continuing, there were not other reports of the fate of the S.K., with Soren Knutson aboard.

A report from Nanaimo this morning stated James Christensen, who was reported to have left Victoria with the others on Saturday, stated Christensen

## KILMER'S BODY BURNED BY MOB

Negro in Texas Died After Being Shot by Posse When Allegedly Resisting

Body Dragged Through the Streets of Town; Negro Accused of Killing Woman

Associated Press  
Kountze, Tex., Dec. 8.—David Gregory, a negro ex-convict accused of criminally attacking and slaying a white woman, was shot to death when he allegedly resisted arrest by a posse and his body later was mutilated and burned by a mob which dragged it to a pyre in the negro section of Kountze early today.

Officers and incensed citizens had been searching for the negro since Mrs. Nellie Williams Brockman, thirty, wife of a farmer, was found dead on a highway near here last Saturday. Yesterday evening a posse trailed the negro to his hiding place in the belfry of a negro church at York, a town between Kountze and Beaumont, where he was shot and wounded when officers said he drew a pistol and resisted arrest.

The wounded negro, unconscious or being able to make any statement as to his guilt or innocence, the negro, died as the car bearing him sped toward Vidon.

The body was taken to Silbee, another nearby town in the vicinity of Sheriff Miles Olson of Hardin County. Meanwhile the mob, slowly increasing in size, trailed the sheriff to Silbee, took the body from him, tied it behind an automobile with chains and dragged it for thirty-five minutes through the negro section of Kountze.

Members of the frenzied mob of approximately 300 cut out the heart and other organs before casting the body to the flames.

## SIX IN JAIL

Six negroes who had been arrested for investigation in the Brockman killing were in the Hardin County jail at Kountze and some members of the mob were reported to have conspired taking two of these men. The two negroes mentioned in the connection were ones believed to have aided Gregory in escaping from Kountze a few days ago.

## FOR INDUSTRY CO-OPERATION

Manson Says Government's Economic Council Offers Best Hope for B.C.

Canadian Press  
Vancouver, Dec. 8.—A governmental co-operation with industry rather than in a big programme of public works lies the way out of the present situation, declared A. M. Manson, K.C., M.P., elected and former Attorney-General, in addressing the Point Grey Liberal Association yesterday evening.

"The work and wages" pledge of the Liberal government would never assist in the recovery of the province, he said, but a programme of public works such as proposed by Premier Pattullo, he said.

"The only idea worth a hoot is for the government to get into close co-operation with each branch of industry through its proposed economic council," the speaker added.

"Provincial finances will not stand any longer on their own legs, and without penalty—but it must be declared."

"This is permissible no oftener than once in thirty days, Haas said, and only where the acquisition of the liquor has been incidental to the trip.

The ruling comes under the law permitting tourists to bring in 100 worth of articles duty-free.

## NO ALASKA ROAD

Manston did not see where there was room for an extensive programme of public works in British Columbia. There might be some places where main arteries might be developed, he said, but the mooted road to Alaska was "just tommyrot."

"At the same time there is some work to be done. I have no objection, if it is work that will bring purposeful results, such as developing our agricultural or mining districts. The way out is by the fullest co-operation by the government with industry. That's possible. We are proud of our resources, and they should be turned to account."

## CHAMBERLAIN SAYS NRA MOVES SLOWLY

(Continued from Page 1)

Birmingham, Dec. 8.—Hon. Neville Chamberlain, Chancellor of the Exchequer, today said he hoped the United States monetary operations to ease international credit might be accomplished. He believed little had yet been accomplished.

"We all hope they may succeed," he said.

and his boat, the Keno, had been reported missing for two weeks.

Christensen, however, said that the misunderstanding arose through his misreading a newspaper article which put out from here, and that there may possibly have been another boat which has been reported missing.

Shore patrols are being maintained on the coast while the P.M.L. H.M.C.S. Armistead and the U.S. cutter, the Albatross, are standing by for the Dominion Government airplane.

There have been no reports of the fate of the two men aboard the Bella, and the city water works department has not received any word from R. F. Bandy, clerk of the Oak Bay Municipality, said while municipalities should be receiving more revenue than

## DISABLED SHIP TAKEN IN TOW

Halifax, Dec. 8.—The disabled fishing vessel, Shirley B. Cortum was picked up by the government steamer Alfox off the Nova Scotia coast today and taken in tow for Lunenburg.

The Alfox picked up the Lunenburg motor-vessel off Cape Sable, about 120 miles from the spot where she broke down. She had disabled her two propellers.

She was bound home from the banks with 95,000 pounds of fish under hatches.

said Mr. Chamberlain in a speech, "but the meantime these constant fluctuations of the dollar and the constant uncertainties and anxieties which are spread throughout the rest of the world are bound, of course, to shake confidence and slow down trade revival."

a similar nature. Such a system would harness municipalities through necessity of employing men of unequal ability or experience, though paying equal wages, resulting in the cost of any undertakings being far in excess of their value, and in many instances far in advance of the requirements for many years to come.

However, in the event of any municipality being able to logically carry out its programme, we were then a fair proportion of material costs be borne by the two governments in addition to the share of labor. We would point out that the employment of experienced men in outdoor constructional work of a considerable magnitude would through the circulation of their wages, bring back to work many others of the building crafts and those of sales or office experience.

We would recommend that the provincial government be notified that the municipalities are quite unable to even consider sharing any extra cost of the present direct relief or of public works requiring normal wages, and as the matter is therefore beyond their power, the cost of any programme must be borne by the provincial or federal government.

## WILL DO ITS BEST

Reeve Crouch, president of the Union, said the delegates went with a great deal of confidence, believing the present cabinet would do its best to help the municipalities as far as it possibly could.

The reeve reviewed the brief which the Union of B.C. Municipalities presented to the Royal Commission on Taxation.

He first dealt with the argument against limiting municipal revenues to taxation on real property and so-called government grants.

The present system enables the government, whenever financial stringencies arise, to retain more and more of the revenues and to hand over additional responsibilities to the municipalities, the brief states.

Tables showing the reduction of the grants and the extra burdens placed on the municipalities were presented.

A. J. Pilkington, city treasurer of Vancouver, pointed out that in 1929 a change in the policy of the government towards municipalities was put into effect resulting in a cut of fifty per cent in the grants during the next four years.

## GRANTS ABOLISHED

"Under the drastic curtailment of grants approved by the Legislature in 1933 the grants from liquor profits and port-mutual taxes in 1933 are abolished," said Pilkington.

"The municipal salary grants reduced to \$1,179,646. The municipalities will then receive about \$1,750,000, as compared with \$3,500,000 in 1929, an increasing social population and greater need for financial support," said Mr. Pilkington.

"Land has reached the limit of its taxation ability," said Mr. Pilkington, in pointing out services had had to be curtailed and wages reduced in Vancouver.

Unemployment relief received from the province by Vancouver had not helped the city cut its maintenance cost," Mr. Pilkington said in answer to a question by Hon. George S. Pearson, Minister of Labor. Most of the money had been spent on direct relief.

## VICTORIA'S CASE

Mayor Leeming, before presenting arguments from a Victoria viewpoint, congratulated the government in its intention to form a Department of Municipalities and the selection of Hon. A. Wells Gray to head the department.

"As far as Victoria is concerned, it has got to have its grants back and a diminution of these charges which have been imposed upon us in the last few years," said Mayor Leeming.

"A clear, concise picture of the financial problems the city faced as a result of great cuts and new social service demands," he said.

"Land cannot continue to pay the burden. The present system, which is becoming communitarian and confiscatory, must be changed," the mayor argued.

"On our tax roll there are 18,768 parcels of land in Victoria, 15,033 of which belonged to taxpayers. Of that number 3,263, or twenty-five per cent, did not pay taxes in 1932."

The difference between the 18,768 and the 15,033 represented the number which had gone back to the city.

"This year we find 700 properties, many of which are homes, on the tax roll. Many owners must lose their homes under the present system."

"Don't you think they might in any event if the owners cannot be put to work?" asked Mayor Leeming.

"Victoria's case is a case of the government taking away from the municipalities in 1933 of \$393,000, a decreased revenue grant cuts of \$107,000, and new social services of \$192,000. Next year liquor profits would also disappear, and the city would be left with 775, or twenty or twenty-five per cent, with a diminishing tax collecting ability. Figures on the drop in land assessed value were given by the Mayor to show how the city's source of revenue had been curtailed."

## PLAYED FAIR

Mayor Leeming mentioned that Victoria had played fair with the government, and that he kept its maintenance going. It had, however, reduced hours of labor and pay. The cost of public works in Victoria had been cut \$250,000 and the city water works department \$35,000.

paymaster, the Lieutenant-Governor has been in the institution, where only a few days ago his condition was reported as satisfactory.

Chief Justice J. A. Matheson is acting as administrator of the province.

The Lieutenant-Governor is a native of Nova Scotia. He was born on Farm near Tignish, June 9, 1850, the son of Irish parents. He was a member of the Legislative Assembly for seven years and retired from active political life in 1910. He was appointed Lieutenant-Governor three years ago.

Mr. Dalton is widely known as one of the founders of the fox-fur farming industry in Canada.

of the Stumble Inn's crew saw a figure run to the bow. An axe hacked at the cable and it snapped.

The Kromhout's engines were run, and the boat, started, sailed from the quay, but she could not keep up with the powerful Kromhout. Capt. Moyle Hyson feared the boat would be lost.

Search for the missing ship began immediately. While grim-faced men of the customs service combed the coast on other cutters, the Stumble Inn returned to North Sydney. Fuel and provisions were placed aboard hastily, and she was soon away for the open sea again.

SHIPS WARNED

The wireless carried a warning to all ships to be on the watch for the Kromhout, and the Royal Canadian Mounted Police, who administer the customs preventive service, concentrated their vessels in the waters about Cape Breton.

From the North Sydney base the Stalwart and the Tenacity steamed

## SEAWARD

The Bay Hound sped from Charlottetown to join them, and the Stumble Inn—officially, Patrol Boat No. 4—took on provisions and fuel hurriedly at North Sydney, and put to sea for St. Pierre, where the Kromhout was believed to have taken on her cargo of 1,800 kegs of liquor.

It was while the Stumble Inn was driving hard for the little French island that the Kromhout slipped into shore under cover of darkness to land her prisoners. Advised to be on the watch, authorities there immediately arrested the men of the Kromhout's crew and lodged them in jail.

## INTERNATIONAL CASE

Ottawa, Dec. 8.—With the arrival of the alleged run-ship Kromhout at St. Pierre, and arrest of its crew, the sensational case involving the abduction of four Canadian coast guardsmen becomes one of international significance.

Headquarters of the Royal Canadian Mounted Police and the Departments of Justice and External Affairs today were considered the next steps in the drama which must now, in all probability, involve the exchange of communications between the Canadian Government and the Government of France.

## LAW OFFICERS CONSULTED

At R.C.M.P. headquarters it was stated today the Department of Justice would be consulted before a decision was reached as to the next step. The Kromhout, it was explained, was in charge of a prize crew and was apparently the question of mutiny is involved. A special international law applicable to mutiny is in existence, and this may be invoked in the present case.

## CANADIAN BOAT

Lunenburg, N.S., Dec. 8.—The Kromhout, 112-ton motor-vessel named for the engines installed in her, was built at the Smith and Rhuland shipyards here in 1929.

Designed and outfitted for fishing, the vessel has been commanded by Captain Ross Mason of Lunenburg, with Fred Acker as mate. Mate Acker's wife resides at Lunenburg, U.S.

The Kromhout is owned by a group of local shipping men.

### JUDGE REBUKES MAN; JAILS HIM

Associated Press  
Los Angeles, Dec. 8.—Pretending his decision with the rebuke:  
"You made your bed, now lie in it."  
Municipal Judge C. D. Nye yesterday imposed a thirty-day jail sentence on Alfred C. Read Jr. and denied the handsome Oakland broker a new trial on a charge of stealing \$11 from Claire Windsor, blonde actress.  
Judge Nye said to Read: "I place no credence on the suggestion your arrest resulted from a so-called frame-up. You have brought your punishment on yourself. You must take the consequences of your actions."  
Read, central figure in a recent \$75,000 alienation of affections suit brought by his former wife, Marion, against Miss Windsor, was convicted about a week ago by a municipal court jury on a charge of stealing \$11 in marked bills from Miss Windsor's purse last October 14.  
A new trial of the alienation suit has been granted Miss Windsor.

#### SEVEN-YEAR SENTENCE

Morden, Man., Dec. 8. (Canadian Press).—Charles D. Scott, Deloraine farmer found guilty of manslaughter in connection with the death of George Austin, his neighbor, yesterday, was sentenced here to seven years in the penitentiary. Austin was shot and fatally wounded last April. A recommendation for leniency made by the jury was taken into consideration by the court.

### LAKE ERIE LEVEL STEADILY FALLS

Port Erie, Ont., Dec. 8.—Belief that waters of Lake Erie and hence the Niagara River, are receding, as expressed frequently by "old-timers," was confirmed by United States official lake survey figures, made public yesterday. Lake Erie hit a new low level of 570.18 feet above mean sea level, 41 of a foot lower than in October, 1932, and below the ten-year average and .08 of a foot below the high mark in November, 1917. It is expected the December average will drop below 569.9, the lowest on record.

#### TO STABILIZE GASOLINE PRICES

Washington, Dec. 8. (Associated Press).—Conflicting factions of the petroleum industry of the United States yesterday submitted to Secretary of the Interior Harold Ickes oil administrator, a plan for stabilizing gasoline prices by using an equalization fund to keep price depressing distress supplies off the market. Mr. Ickes withheld decision on the plan pending further analysis.

### SEVEN DIE IN FIRE IN HOUSE

Two Women, Three Girls and  
Two Boys Perish at Sault  
Ste. Marie, Mich.

Canadian Press  
Sault Ste. Marie, Mich., Dec. 8.—Trapped by flames in a little frame house here, seven persons were burned to death early today.  
The victims were Mrs. Ernest Hibben and her four children, Jerome, Catharine, Ernest and Genevieve, Mrs. Albert Orr and her year-and-a-half-old daughter.  
A few minutes after midnight Mrs. Hibben telephoned an alarm to the fire department. As she tried frantically to get the call through, the telephone operator could hear her crying to her children to leave the house. None of the occupants escaped.  
The blaze followed an explosion, thought to have been caused by coal gas in the furnace. The flames spread rapidly through the frame structure.  
The home was owned by Mr. and Mrs. Ernest Hibben and Mrs. Orr had moved in as a tenant only a week ago. Mr. Hibben, who was in Detroit working on a boat, is now on his way home.

### HOSPITAL IN CHICAGO ROBBED

Associated Press  
Chicago, Dec. 8.—The pen is mightier than the sword and a pencil can do some damage at times.  
A mute and apparently unarmed robber handed Mrs. Alice Phelps, a clerk in a hospital, a pencilled note announcing it was a "stick-up" and mentioning time bomb placed in the building would go off if no money was forthcoming.  
Mrs. Phelps handed him \$138. No bombs were found. The silent one escaped.

### CANADA SENDS WHISKY TO U.S.

Canadian Press  
Montreal, Dec. 8.—Word from Washington the United States Government might increase import quotas to combat high liquor prices there was coupled in the financial district here with a report that about 4,000,000 gallons of Canadian whiskeys of American types would be allowed into the United States within the next ten months.  
Distilleries in Montreal offered no comment, but it was learned heads of several companies are in the United States now looking for American distilling plants to enable the blending of well-aged Canadian liquors with the newer United States product.  
On the day prohibition was repealed, Distillers Corporation-Bearings Limited purchased a distillery at Lawrenceburg, Ind.  
Hiram Walker and Sons Limited some time ago built a large plant at Peoria, Ill.

### Samoa Flag Sent Back to Germany

Wellington, N.Z., Dec. 8.—The flag which once flew over the German governor's residence at Apia, Samoa, is being returned to Germany by the Wanganui Rotary Club in pursuance of the Rotary policy of promotion of international peace and goodwill.  
The flag was hoisted down when New Zealand troops occupied the Samoan Islands shortly after the Great War broke out. Since the war Samoa has been administered by New Zealand and the United States under mandatory powers from the League of Nations.

#### DEATH SENTENCE

Dauphin, Man., Dec. 8. (Canadian Press).—Charged with the murder of his wife, Mike Lagoski yesterday was convicted and sentenced to be hanged February 28. Lagoski claimed his wife had told him she and Steve Gidewich, hired man on the Lagoski farm, "were going to kill him." He admitted slaying the woman, saying he had acted in self-defense.

### RESIGNS EDITORSHIP

Major Francis Yeats-Brown, above, author of "Bengal Lancer," has resigned the post of editor of the English weekly review, "Everyman." A report from London states the board of directors disagreed with Major Yeats-Brown's view on the corporate state and its establishment in Great Britain. The major held the position for six weeks.

### PAN-AMERICAN TARIFF TRUCE

Conference Urged to Call on  
Nations to Restore Lower  
Rates of Years Ago

Associated Press  
Montevideo, Uruguay, Dec. 9.—The Pan-American Conference has been called on to restore tariffs to a basis of those in effect in 1928, before the United States Smoot-Hawley act went into effect.  
Sponsored by Uruguay, a resolution was introduced yesterday providing that on July 1, 1934, the 1928 duties should go into effect for five years.  
A truce would be declared in effect until July 1, providing against changes in present duties.  
Asking immediate action, Uruguayan delegates said they hoped it would be possible to cable all Pan-American governments within a fortnight asking adherence to the truce, pending the five-year agreement.  
The resolution provides for restoration of duties to those in existence at the time on the Pan-American Conference sessions in Havana five years ago.

### FRUIT GROWERS AT CONVENTION

Canadian Press  
Vernon, B.C., Dec. 8.—The first convention in more than forty years' history of the British Columbia Fruit Growers' Association is to be held in Kelowna January 17 and 18. Hitherto these gatherings have been the annual meetings of the membership, with members having full power to talk and vote. Under the new constitution members may talk, but only delegates may vote at the convention of delegates. Important questions are to be referred to the locals to pass on, and member votes. Under the new system the membership makes its weight and desires felt without the expense of attending the annual gathering.  
Another change is contemplated. The programme committee is to invite speakers to review the results achieved in marketing, horticulture and other fields during the year, and they will not be free as they have chosen to be in the past to talk on any subject which occurs to them.

### LIQUOR TANGLE NOW IN OREGON

Salem, Ore., Dec. 8.—The Oregon Legislature, embroiled for seventeen days in a tangle of liquor control proposals, objections and amendments, has been thrown into still greater confusion by a ruling of Attorney-General I. H. Van Winkle that an amendment to the state constitution, passed in 1910, would make unconstitutional any attempt by the state to exercise exclusive control of intoxicating liquor.

### CENTRAL BANK MEASURE SOON

Bennett Foreshadows Do-  
minion Bill at Conservative  
Meeting in London, Ont.

London, Ont., Dec. 8.—The conviction arrived at by Premier Bennett when the United Kingdom went off the gold standard in September, 1931, will bear fruit at the coming session of Parliament, when legislation to establish the central bank will be introduced.  
Mr. Bennett made this statement when he addressed the annual dinner of the Western Ontario Conservative Association here yesterday evening.  
When the United Kingdom left the gold standard and the exchange and money markets of the world were thrown into confusion, Mr. Bennett said he summoned the bankers of Canada to meet him in Ottawa.  
"Then I learned, to my surprise," he said, "that there was no direct means of settling international balances between Canada and London, that the only medium was New York, and the value of the Canadian dollar would have to be determined in Wall Street."  
"I made up my mind then and there that this country was going to have a central bank because there must be some financial institution that can with authority, do business for the whole of the Dominion with the other nations of the world."  
"If Canada was to be financially independent there had to be a means of determining balances, of settling international accounts, he said. A central bank would provide this."  
TALKS OF BUSINESS  
With a note of confidence, based, he said, on the cold facts of business statistics, which indicated an improvement all over the world, Mr. Bennett said Canadians need have no fear for the future of their country. For his part he was determined no act of his government should place a burden on succeeding generations.  
Inflation was not the road to prosperity, he declared, and he took more pleasure in the fact that Canada's credit and reputation for integrity stood unchallenged among the nations than if he had added \$100,000,000 to the national currency by inflation.  
"I offer to no man an apology for increasing tariffs," said Mr. Bennett. "We did it to prevent the bankruptcy of this Dominion."

### Fulford Hardy Leaves France

Canadian Senator's Son Re-  
leased After Spending Time  
in Paris Jail

Canadian Press  
Paris, Dec. 8.—Fulford Patrick Hardy was released from the Sante prison today and will sail for Canada Saturday with his father, Senator A. C. Hardy of Brockville, Ontario.  
Young Hardy had been in police custody for several weeks, charged with striking his mother, Mrs. Hardy, sailed for New York on the liner Europa today, fully recovered from her slight injuries.  
The young man went from the Sante prison to his father's hotel. They will sail from Havre on the Cunard liner Albatross for Halifax.  
The investigating magistrate formally issued a "non lieu," automatically ending the proceedings taken against the young man. Hardy's release was unconditional, but his lawyers had agreed he should immediately leave France.

### CAR DRIVER FINED \$100

Nanaimo, Dec. 8.—Miss Evelyn May Beban, of Nanaimo, was found guilty of driving to the common danger and fined \$100 and costs after a hearing before Magistrate Beaver-Potts in the police court yesterday.  
The charge arose out of an accident on the highway at Chase River in which Miss Beban's car collided with three men on bicycles on November 14. The three men, Horace Brown, Jack Hardcastle and James Hamilton, were seriously hurt and the court adjourned to the hospital to hear their evidence.  
They claimed Miss Beban was on the wrong side of the road when her car struck them.  
In her defence Miss Beban said she had run into a fog bank just before the accident and did not see the men until a face appeared in front of her headlights.

American Bridge League  
Players Are Accused of  
Ungentlemanly Conduct

Philadelphia, trailed thirty-third with 226 points. Sims, originator of a system widely used, fell by the wayside in the qualifying round of the auction pair championship earlier in the week.  
Other leaders in yesterday's open contract play were Aaron Frank and Jefferson Glick of Cleveland, fourth with 810 points; Mrs. M. A. Bellaire and J. W. Bellaire, fifth, with 798; A. Moyle Jr. and A. H. Morehead of New York, sixth, with 799; Fred Devy, Montgomery, Ala., and Mrs. Humphrey Wager, Atlanta, seventh, with 793½; Mrs. G. A. St. Gardner and Mrs. A. C. Charles A. Hall and R. M. Wildberg, Cincinnati, tenth, with 784.  
UNGENTLEMANLY CONDUCT  
Meanwhile, two players, among the leaders, dropped out of the tournament. The executive committee of the league admitted it had received protests of ungentlemanly conduct; and Cincinnati clubs were reported considering withdrawing from the league because of dissatisfaction.  
Maurice Maschke, former Cleveland political leader, and his partner, G. W. Parrott, of Cleveland, were the players who withdrew. Maschke, it was announced by Russell J. Baldwin, tournament director, informed the league officials pressure of business required his return to Cleveland. He and Parrott yesterday were declared winners of the last auction pair championship the league will sponsor.  
Details of the protest of improper conduct at the tables were not officially divulged, nor were the names of those implicated, or the nature decided upon. It was learned, however, that it was agreed to reprimand one prominent player and that two of those who made protests were Mrs. H. Wager of Atlanta, Ga., and A. H. Morehead of New York.  
A league meeting late yesterday brought a decision to levy an assessment against Cincinnati players of the championship being played at this week, and an announcement from Sir Derrick J. Warner, league president, that plans were being made for an international competition.

## A WISE DECISION

To be returned by acclamation after two years in office is a personal tribute of which any chief magistrate may be pardonably proud, and The Times extends its felicitations to Mayor Leeming on this exceptional expression of public confidence. We feel satisfied that he will vindicate fully the wisdom of the electorate's decision.

The two years in which Mayor Leeming has occupied his important position have been unusually difficult, covering the worst stages of an unexampled economic depression. When he took over his duties he was confronted with a deficit of something like \$150,000; by the end of 1932 he had wiped it out and had a small margin on the right side. At the beginning of this year there was a general but very natural clamor for a reduction in taxation. The budget was a long and tedious job, but in spite of heavier drains on the municipal treasury about \$70,000 was lopped off the tax levy. At the end of his two years, therefore, Mayor Leeming can look upon substantial achievement in behalf of the community.

With a new government in office at the Parliament Buildings, a Minister of Finance who for years has been intimately in touch with municipal affairs in this city, and Hon. Wells Gray as Minister of Municipalities, Mayor Leeming may feel confident that he will be able to exercise considerable influence on the "new deal" to which Premier Pattullo declares the municipalities are entitled. The fact that local conditions appear to be definitely improving from month to month is an encouraging augury for Mayor Leeming's third term.

## PEOUILLAR ECONOMIC LOGIC

On every occasion recently when the head of the government at Ottawa has discussed the trade of the Dominion and the tariff policies of his administration he has expounded the economic formula that it is better to have an external business exchange worth \$876,000,000 and a favorable balance of \$100,000,000 than a trade worth \$2,400,000,000 and an adverse balance of \$98,000,000. In his address to the Western Ontario Conservative Association at London last night he implied that Canada's solvency had been preserved solely by the very substantial curtailment of imports that increases in the customs duties had made possible. "I offer to no man an apology for increasing tariffs," said the Prime Minister, obviously to make sure his point went home to his audience, "we did it to prevent the bankruptcy of the Dominion."

Mr. Bennett charged his political opponents with saying his government had restricted trade. Then, he said, "So we did, but whose trade? The foreigner's trade, and I prefer the Canadian artizan to the foreigner any day." But the fact that during his administration the unemployment figures increased from 170,000 to over 700,000 furnishes a weird commentary on the nature of that preference. In the twelve months ending September of this year our external business was \$172,000,000 lower than it was as far back as twenty years ago, and more than a billion less than it was in 1926. Against this melancholy record he sets his claim for improving business with the empire as the result of the Ottawa pacts. But even this provides only diluted comfort, for while in the twelve months ending September of this year our trade with empire countries showed an increase over the corresponding period a year ago of \$22,200,000, the decline in the same period in Canada's business with foreign countries totaled \$131,100,000, or a loss in the aggregate of \$108,900,000—and it is the loss that counts.

If the Prime Minister is able to persuade the Canadian artizan that his welfare has been protected by policies which have materially contributed to this reduction of business in the last twelve months he will qualify for a magician's diploma in a new school of economics. The man who is out of work and wondering where the next meal is coming from can trace his sufferings to a very considerable extent to the insane policy of trying to do all the selling and none of the buying. Let us quote The Winnipeg Tribune, a newspaper which fought valiantly in Mr. Bennett's interests in the election of 1930, on this subject:

Most protectionists are capable of seeing that while Canada, especially under present world trade conditions, needs a measure of protection, the policy has to be tempered with judgment. We have wheat, lumber, fish, fruit, meats and many other surplus products to sell, and we cannot sell them if we refuse altogether to trade with other nations. The whole problem is one to be considered from a strictly business standpoint. If we were wise it would not be a political question at all. Mr. Ryckman approached it as a seer, convinced that the more protection we had the better it would be for the country.

Our Winnipeg contemporary in this comment was referring to the retirement the other day, as Minister of National Revenue, of Hon. J. H. Ryckman, whom it considers "a fine type of public man," but one who unfortunately "was handicapped by inability to temper judgment with reason," who, "having decided that protection is a good thing, we can not have too much of it."

Of one thing we may be sure—and it is as certain as the inexorable processes of nature—Canada can not recover from her economic disabilities as long as she isolates herself from the rest of the world behind the highest tariff wall on earth. Of this her public is aware and is obviously waiting impatiently for the day when it will consign to the limbo of things forgotten the policy which has gravely crippled a young country which, with all its natural opportunities and enviable advantages, ought to be the most prosperous region on earth.

## WHY NOT AN INQUIRY?

One important point which The Toronto Globe makes in its persistent demand for a commission to investigate penitentiary conditions in Canada—a demand endorsed by the bulk of the press—is that it would cost a good deal less than it will cost the taxpayers if the time of the House of Commons is taken up with a long debate on the question. That it will be aired in detail unless the government takes action in advance is almost certain.

The Ottawa Daily Times repeats that there is a feeling of unrest regarding penitentiary conditions, and only complete frankness by the government can allay it. Our contemporary admits there may have been considerable improvement in conditions in recent months and the government should not hesitate to say what these improvements are. It contends that it is not enough to invite representatives of social service bodies to inspect the institution. Experience has shown, of course, that such parties see exactly what the officials want them to see, and hear what the officials want them to hear. Therefore, they can not give a complete picture of what is going on in the prison.

## MR. DE VALERA'S DILEMMA

President Eamon de Valera of the Irish Free State has announced to the world that Great Britain is keeping Ireland within the British Commonwealth by force of arms.

This is the first time we have heard of this since the trouble between the government of Britain and the government of the Irish Free State began over the non-payment of the land annuities. It can be assumed, of course, that Mr. de Valera's failure to "draw" Rt. Hon. J. H. Thomas on the point as to what Great Britain would do if the Free State were to declare for separation from the empire has driven him to an extreme conclusion.

In a statement to the Associated Press—obviously for consumption in the United States—Mr. de Valera says he told Mr. Thomas "the will of the Irish people to-day, as always, is to be free and independent, and that we want no privileges which require the sacrifice of our freedom."

There is no doubt a large number of people in the Free State who would prefer to have nothing to do with Great Britain or the rest of the empire; but not a few of these naturally are asking themselves how they would fare economically if the tie were severed. The people of the Irish Free State, however, can not speak for the six Northern Counties, where the recent general election confirmed the government's majority; it commands thirty-six out of a total of fifty-two seats.

There are many indications, of course, that if the Free State should decide to secede, no force of arms would be employed to hold her in the British Commonwealth. But it is not difficult to imagine the present British government tightening up the economic screws, already applied with serious effects for both, but much more so for the Free State.

Mr. de Valera ought to realize by this time that Britain is neither in the mood nor in the financial position to begin another little war with the disgruntled part of Ireland.

## BETTER THAN ARMAMENTS

Slum clearance has long been discussed in Great Britain but little has been done except over a very long period of time. When the elimination of unemployment through vast public works schemes was proposed last spring, it won small support from the political public because it had not worked very effectively in the past. Manchester and Liverpool have recently made announcements of slum clearance programmes which are the largest ever undertaken by any country in England.

The Manchester City Council has approved a five-year housing scheme, which is expected to involve capital expenditures of five to eight million pounds. The city plans to demolish 15,000 houses, and to clear all the city's slums in the next five years. At an estimated cost of more than seven million pounds, the Corporation of the City of Liverpool, over a period of something like ten years, is to demolish a total of 12,742 houses, and build in their places 15,692 new dwellings to accommodate 63,000 persons. Of these houses 5,000 will be self-contained cottages in garden suburbs on the fringe of the city, and the remainder will be modern tenements housing the people in close proximity to their work. On building alone, apart from demolition, the scheme will employ about 2,000 men for a period of ten years.

Better housing conditions, lower rents, and other demands related to Great Britain's social services have played important parts in recent by-elections. The boroughs and counties seem to be leading the way.

## WHAT OTHER PAPERS SAY

## THE YEAR OF DEFICITS

La Patrie, Montreal

It is clear that our rulers, provincial as well as municipal—and those at Ottawa are in the same case—ought from this moment to be doing all that they can to reduce to the absolutely irreducible minimum the costs of relieving unemployment. Happily, economic conditions in the country tend in a general way to recover. It is of the utmost importance that the general improvement should go hand in hand with a proportionate reduction of public expenditure in relief costs. Otherwise municipalities, province and country will all be prevented from returning to a flourishing condition.

## GLOOMY DEAN RETIRING

The Hamilton Spectator

The Very Rev. Sir William R. Inge, Dean of St. Paul's Cathedral, London, is about to retire, according to reports. Though the dean holds it to be his mission to warn his beloved homeland against impending dangers to its future welfare, he indignantly repudiates the situation that his outlook is "gloomy." He blames an enterprising newspaper reporter for fastening that title upon him, which he describes as a "very inappropriate nickname." He has his happy moments, in one of which he painted a very attractive picture of a future—about a thousand years away—when there will be no more war, no debt, no money worries of any kind, and a Parliament in Britain which will be required to sit for only two weeks in the year. Crime will have almost disappeared and what there is will be effectively dealt with, a "painless end for incorrigibles" being mercifully provided. If the good Dean really retires from active participation in the discussion of current problems, the loss will undoubtedly be great; for his comments are more stimulating than depressing.

## Loose Ends

No one needs the brave men of these times, who still go on marrying—two eminent opinions are quoted—one old and one rather new—another level is produced from the treasure chest—and from told something funny for the newspapers.

By H. B. W.

## UNKNOWN HEROES

IN BRITAIN the other day the courts made an important decision. They ruled, in effect, that the depression is no excuse for failure to marry. Apparently a civil engineer over the age of thirty engaged to a girl and then wrote her a long letter explaining that, in the present state of society, the uncertainty of the future and the imminent collapse of civilization, no man was justified in marrying and bringing more to his kind a gloomy world. He offered, instead, to give the girl half his fortune, call the whole business off and let the human race end there without further effort to save it.

Let us be thought better of it and had sufficient confidence in civilization's survival to keep all his money for himself. The courts ruled, however, that he must go through with the bargain, and the wretched fellow had to pay the money over as agreed; and meanwhile, civilization, with its usual treachery, continued to go on as usual. The only difference was that the girl had half his money.

This is all very sound. Such faint-hearted fellows must be punished. But on the other hand, what reward is there for our modern heroes? To get married to a girl, to assume the responsibility of keeping a home together and raising young in the shadow of the next war to end war, requires an iron nerve and a heart of oak.

You can't stop them with reason. You can't argue them out of it by economics. You can't persuade them to remain single by proving the obvious proposition that the world is about to end. They will go and do it. The papers are full daily of pictures of young chaps and maidens who laugh at the depression and go ahead without a quail. Yet no one praises them. They get no particular credit for what is undoubtedly one of the most gallant acts of history. Human nature is funny that way. It insists on going ahead, it insists on surviving despite all the elaborate institutions which men have erected to make its survival impossible. When this crisis over we should erect a monument to the real hero of this time, the Unknown Husband.

## CURRENT ISSUE

HERE is an interesting view on a current problem of importance from a notable authority: "The most hated sort of socialism is that which makes a gain out of money itself, and not from its natural use. For money was intended as an instrument of exchange and not as the mother of interest. This usury, which means the birth of money from money, is, of all the modes of gain, the most unnatural. . . . The discussion of the theory of finance is not unworthy of philosophy; but to be engaged in finance, or in money-making, is unworthy of a free man."

Does this, poor patient reader, sound to you like an extract from the G.C.F. platform? A new socialist notion, which has come out of the depression? Alas, it was written by poor old Aristotle just about 330 B.C.

Aristotle even thought of Communism (as, of course, Plato had done before him) and said: "That which is common to the greatest number best interests the least attention bestowed upon it. Everyone thinks chiefly of his own, hardly ever of the public interest. . . . There is always a difficulty in living together or having things in common, but especially in having common property. Men readily listen to (to Utopias) or are easily induced to believe that in some wonderful manner everybody will become everybody's friend, especially when someone is heard denouncing the evils now existing, which are said to arise out of the possession of private property. The evils, however, arise from quite another source—the wickedness of human nature. Political

science does not make men but must take them as they come from nature. It seems like an echo of our recent provincial election. The more one reads, the more one realizes that anything he or his neighbors think has been thought of long ago, many times. Usually it has been thought out much more competently.

## PHILOSOPHIC

LISTEN, then, to another philosopher, much better known than Aristotle to the successful business men of Victoria. I mean, of course, my friend Mr. Fosse, who shines your shoes in the barber shop: "Times bad? Not on your life, they ain't bad! There's nothing wrong with the times. It's the way we treat 'em. People all expect to get a livin' these days for nothin' why, you'd think money grew on trees beside the road to hear some of 'em talk. And who squeals the hardest about hard times? Those who are hit worst? Not much. Them squeals the hardest who has the most. Many a time I see men sittin' around the hotel lobbies complainin' that they're broke to the world and don't know how they're going to pull through the depression. And then when they bend over you'll see a thunderin' great roll of ten and twenty-dollar bills stickin' out of their pockets. They're the boys what are yellin' about the depression. Us what work for a livin' we don't kick none. Why times is great and gettin' better all the time. It ain't the times what is wrong, but the people in 'em. If you could just get rid of the people, times, they'd look after themselves." Unquestionably this is a profound truth.

## JOLLY

AFTER ALL this sadness, let me cheer you up with a sparkle from our private jewel box of our own Victorian poetry which the undertaker loaned me. This rousing rhyme, written by our own Victorian poet laureate, is called "Only a Tramp, But Somebody's Child." It is just the thing for a depression: Another found dead in bed we are told, No sign of life, no sign of soul, 'Tis some poor mortal in this world, Who's racked his brains and dropped many a tear. No doubt as a child with a mother's care, He never thought of the world's misdeeds, That would entwine his footsteps in the mire. Which he had in his taking his life. At some time no doubt he has been a bread-baker, But temptations have come and made him a tramp. In his heart he doubt many a time, He has had the thought of committing a sin, But his conscience told him to try to refrain, He struggled along and tried to earn, The hardships he'd gone through and hope that things would against him from bad to worse. And he began to think that life was a curse, From that moment on he kept out of sight, And made up his mind with death he would fight. But to his name and never he known, By his actions plainly to us it is shown, Another poor fellow from this world is lost. And in common language, we say, "He is dead." The police in their rounds often say things like, "Much to their credit which shows they're true blue." I know they must keep up to date here, But at the same time it brings out human nature.

## SOMETHING FUNNY

"WHAT," said the little girl from next door, as she marched in and loudly interrupted these gloomy speculations, "What's doing?" "I'm trying," said I, "to write something funny for the newspapers." "Oh, that's easy," said she. "Write something 'bout me. I'm funny as anything. So is my brother, only he has no sense yet and is only a boy. You know, something funny, eh? Well, write about Fudbury's bull. He got two now. One is a daddy and one is a mummy bull. And there's a lot of new cows, a grandmother and a daddy and a sister and a baby. That's funny, isn't it?" "No," said her brother. "No, let's see. (I was noting it all down in shorthand.) Something funny for the paper, eh? Hew's this—poor little Nipper—that was Laura's little brown dog, you know—fell into the lake and got drowned. Then when the lake went down he crawled out again. Of course, he didn't crawl out again, but put it in the paper anyway. It's funny and the people what read the paper won't know any better. Something funny, eh? Well, this is funny—a stone climbed a tree! Anybody would laugh at that." "Ugh," said her brother gloomily. "Well, this is funny anyway—the

she spanked a rose on the boty!" "Bluh," said her brother. "Well," said she, thinking hard and desperately, "tell them, 'If I should die before I wake, I pray the Lord my soul will take.' That's funny, isn't it? That'll make 'em laugh, all right." "Urk," said her brother.

## THE RHYMING OPTIMIST

By ALINE MICHAELIS

A MOTHER PRAYS  
God, I would keep my son as now,  
So dear to me, and so true,  
With innocence upon his brow,  
A sweet and joyous child.  
But since I know that cannot be,  
May he grow wise and strong,  
Well-armed in integrity,  
Relentless foe of wrong.  
May he with gladness play his part  
Within the world of men,  
With courage ever in his heart,  
And fail to try again.  
But, Father, in his breast I pray  
Leave one unchanging place,  
Where still a little love may stay  
For mother-love's embrace.

## Twenty-five Years Ago To-day

THE VICTORIA DAILY TIMES

(From The Times Files)

G. W. Gapp, of the White Pass and Yukon railway, speaking on the prospects for next season in the Atlin district, said the development done this season pointed to many going into Atlin in the spring.

In the first game of the basketball season played last evening at the Assembly rink, the North Ward team met defeat at the hands of the Bays, who registered twenty-three points against nineteen points.

The new C.P.R. steamer Princess Charlotte left Victoria yesterday for Callao en route to Victoria. She is making a fast trip and is expected to arrive here in time for the officers and men to eat their Christmas dinner in Victoria. The Princess Charlotte can do twenty-two knots but the Princess Charlotte is expected to better that by a knot or two.

The steamer Whatcomat may go on the Seattle-Port Angeles run. Joshua Green, president of the International Company, Annapolis, Port Angeles, and offered to put the Whatcomat on the run if the merchants of the city would support the service. The Whatcomat is now on the Victoria-Seattle run. It is understood that as soon as the new steamer opens the Chippewa will return to this route and rates will be raised.

A meeting of the public commissioners was held yesterday at which a resolution was passed dealing with the observance of regulations by saloon keepers.

Los Angeles, Cal., Dec. 8.—James Corbett, former heavyweight champion of the world, will re-enter the ring on December 15 in this city, but not as a fighter. He has consented to referee the fight between Hugo Spong and Billy Papke at the Jeffries pavilion.

## Other People's Views

## "WORK AND WAGES"

To the Editor:—The sooner the "Work and Wages" programme starts the better, at least for the single men of Esquimalt. Our short allowance was stopped in July (we were informed in October). The only allowance now, is two days work per month to pay rent, light, and live on. Approaching the New Year, and the days per month, I was asked if I expected the rate payers to keep me. No, I do not, but how can property owners pay their rent if they do not get their rents, which very few are doing, unless something is done to remedy affairs. The "Powers that be" at the "Parliament Buildings" say they can not do anything and are up to the municipality (and they are so-called "camps" and well over sixty, as several more in Esquimalt. Mr. J. is responsible for the buck? I'm told if I cannot get my rent to get another place. How can this be done without "work and wages" or shorter allowance (without saying anything about clothing)? Several men in Esquimalt at the present time are fit only for the hospital while the grass is growing the horse is starving. Who is responsible? JAMES VAIL  
665 Malvern Street, Esquimalt, November 5.

## PROHIBITION

To the Editor:—With all humility we would like to draw your attention to yet another piece of imbecility in regard to the working of our present economic system, known to some as capitalism.

We are informed, rightly or wrongly, that the people in the Langford district, mostly unemployed, are about to have their drinking water supply cut off if they do not pay their water rates. This is of course, under the system, perfectly legal, but, mark you, the city is not short of water. The city reservoirs are running over and a special spillway has been cut in the mountain side to get rid of the surplus water! There is not the slightest doubt that the inhabitants of Langford need water for drinking and cooking; possibly some need it for washing. Yet, owing to economic conditions, the poor can not pay their water rate so they must not have water. Mr. Mayor, humbly ask you, is insanity a strong enough word for this?

## IMPRISONMENT

A SLACK ON BRIGHT FUTURE  
To the Editor:—A few days ago The Times announced that Mr. H. G. Wells has written another book, and that again a great many are being awayed by the "bright future" of the world with the "bright future" of the world has this in common with the prophecies of the Bible in that it claims that before things "generally will get better they will get worse." Mr. Wells deals, however, with the human race as a whole, giving no hope for the present generation, collectively nor individually. For the promised bliss is evidently only for those who shall live 200 years hence! Up to that time everybody will suffer, in a greater or lesser degree, mental and physical agony. Here then is the weak spot in Mr. Wells's book, "The Shape of Things to Come," where he differs from real prophecy and utterly fails to give comfort to the misery that is to give comfort to the misery.

## FRENCH GIRL MADE SAINT

Pope Canonizes Fourteen-year-old Girl of Lourdes Grotto Fame

Vatican City, Dec. 8.—The fourteen-year-old French peasant girl whose visions of the Virgin were responsible for the famous Grotto of Lourdes, was made a saint to-day by Pope Pius XI. The solemn canonization was in St. Peter's in the presence of a score of cardinals and an estimated 50,000 pilgrims. She became Saint Bernadette Soubirous.

The Pope decreed in Latin that Bernadette be inscribed in the catalogue of the saints and her memory celebrated in the universal church every year with pious devotion.

Simultaneous six-voice trumpets were sounded by Swiss guards in a balcony high over the main door of the cathedral. The Basilio took up the canon of rejoicing and spread it to the bells of Rome's twelve churches. The cathedral choir, joined by the faithful within the church, chanted the rejoicing hymn, "Te Deum."

Thus the humble French girl whose life was passed as a provincial nun, received the highest honor that can be conferred by the Roman Catholic church.

## PERSONAL

Mr. and Mrs. John M. Richmond Court, left on Wednesday afternoon for the mainland en route to Chicago, where they will spend the next five months.

Complimenting Miss Poppy Beale, whose marriage takes place here tomorrow at Victoria, Mr. and Mrs. Gordon Campbell entertained with three tables of bridge, followed by a dance at their residence at Bedford Heights. Mr. Campbell's guests included: Miss Turner and James Glaspey.

Accompanied by her niece, Mrs. J. W. Foley of Stillwater, Minnesota, Cal. who has been her guest for the past month, Mrs. E. Glaspey came down from Port Alberni Wednesday to attend the marriage of her son, Mr. Elmer Glaspey to Miss Poppy Beale on Saturday. Following the ceremony Mrs. Glaspey will spend a holiday at Vancouver, where she will be the guest of Mr. and Mrs. Ross Pendleton, later going on to San Diego, California, where she will be in residence for the winter months.

In honor of Miss Charlotte McKenna, whose marriage will take place on December 23 at the residence of her sister, Mrs. Harold Thompson, Victoria, Mrs. T. A. Brown entertained at dinner and bridge on Tuesday evening at her home at Great Central, when the invited guests were: Mrs. C. T. Robson, Mrs. E. Demena, Mrs. C. Callford, Mrs. B. Mann, Miss Margaret Wronowski. Prizes for the high score were won by the guest of honor and consolation prize was awarded by Mrs. McKenna. A most enjoyable evening was spent by the guests of the evening as the presentation of a handsome framed etching as a wedding gift from the assembled guests. Miss McKenna arrived in Victoria yesterday to be the guest of her sister and brother-in-law, Mr. and Mrs. H. Thompson.

## Your Baby and Mine

BY MYRTLE MEYER ELDER

BY ALL MEANS IMMUNE INFANTS AGAINST DIPHTHERIA

It is not the province of this department to deal with medical subjects, but one of the most frequently asked questions concerns the immunization of children against diphtheria.

Dr. E. B. puts this direct question: "Is it advisable to give my one-year-old baby toxin treatments for prevention of diphtheria? Many persons are puzzled as to the proper length of time these shots should be given."

The most dramatic scientific progress has been made in the field of preventive medicine. Many diseases are still dangerous if not fatal to human life, but science is making it possible to prevent them.

Smallpox was once a devastating disease, but it is almost inconsequential today because of the wide-spread use of vaccination against it. Working out the method of diphtheria prevention has taken place in our own lives and so is not so well known or its effectiveness so universally taken for granted.

Diphtheria is one of the most serious diseases of infancy and childhood. The danger lessons with the year. This makes it more than ever important that we offer the baby and young child protection against it.

Immunization is done passively and safely to children during the year and beyond. Two injections of a substance called Toxoid are given. The immunization becomes effective in about two months and should last for years.

Anyone familiar with the simplicity of the immunization process and the data which has been gathered about its effectiveness could not be guilty of discouraging parents from embracing this helpful scientific procedure.

## Uncle Wiggly Mends The Dish

(By HOWARD R. GARIS).

Nurse Jane Fussy Wussy looked first at Uncle Wiggly and then at the broken dish. Next the muskrat lady housekeeper shook her head until her whiskers touched beneath her chin and tickled her. After that she said, "Oh, dear, Mr. Longears, this is very sad!"

"You mean the broken dish?" asked the rabbit gentleman.

"Yes," answered Nurse Jane. "I'm so sorry you dropped and smashed it. This was my best pudding dish."

"But didn't I tell you I would mend it?" said the rabbit. "I shall, very soon, too. Just you watch."

Uncle Wiggly began to pick up the pieces of the broken dish. He had carried it out on his bungalow porch full of sugar pudding, not the porch. The porch was filled with rabbit and other animal children.

There you are!

Uncle Wiggly wanted to stop the children from asking him a secret about his having gone to the cave of Mr. Whitehead, the Muskrat. He wanted to stop them from asking questions about secrets to be fed them sugar pudding or something very good.

It was while carrying the empty pudding dish back into his bungalow that he tripped and the dish fell and broke. "I mean the dish fell and broke, the porch didn't."

"Do you mean to say you can really mend this broken dish?" asked Nurse Jane.

"Certainly I can," answered Mr. Longears. "Please get me some water, Nurse Jane," and he picked up the last of the pieces of the broken dish.

"Water!" exclaimed the muskrat lady. "Don't you mean glue? I've mended broken dishes myself, with water to let just as glue hardens. Water won't stick the pieces together."

"Oh, I think I will," said Mr. Longears, twinking his pink nose in a way just as he did when he was a boy. "I mean I'll show you."

Wondering and feeling quite certain Uncle Wiggly was fooling her, Nurse Jane brought out a cup of water. The rabbit then ran off to play in the woods before it would be dark and time for supper. They were going to be hungry for their supper even after having the pudding.

Uncle Wiggly picked up two pieces of the broken dish and held them over the cup of water before dipping them in.

"What I am going to do," he said as though about to perform a trick, "is to glue the pieces together with water."

Whitehead, the Polar Bear, mended a broken Christmas tree ornament when it accidentally dropped it in his cave and broke it into pieces.

"How did he do it?" asked Nurse Jane.

"He stuck the pieces together with water," answered the rabbit. "and when Jack Frost blew his cold breath on them the pieces stuck together as though glued. The ornament was as good as ever. That's how I am going to mend your broken dish."

"I'd like to see you," said Nurse Jane. "You shall," spoke the bunny.

"But where is Jack Frost?" asked Nurse Jane.

"I can feel his cold breath so he cannot be far away," said Mr. Longears. This was true, for the cold night wind was blowing. After dipping two pieces of the broken dish in the water, Uncle Wiggly held them together tightly for a moment. Jack Frost's cold wind blew on them, freezing the water and the pieces stuck together.

"There you are!" chuckled Mr. Longears.

## Seamen Express Appreciation of Local Institute

(By HOWARD R. GARIS).

Letters of appreciation from the officers and crews of ships which have recently visited this port were read by Mrs. W. R. Sayer, president of Victoria Seamen's Institute, at the December meeting held yesterday afternoon in the institute, Superior Street. The crews of the Hadleigh, Bonnington Court and Tilsoning Court expressed the pleasure they had experienced in the entertainment afforded them at the Seamen's Institute, which they found so homelike and hospitable, and which they will look forward to visiting in future.

During the past month four socials have been held, and 304 men and twenty-three apprentice boys have registered; eighty-one men were from the ships which are taking out cargoes of lumber.

Mrs. Sayer thanked the members of the twenty-first birthday party last week by Mrs. E. Vernon Thompson, Mrs. F. M. Snowdon, and those who took part in the entertainment programme by arranging for Christmas parties for the men.

Arrangements were made for Christmas relief work amongst seamen in Victoria, and gifts of jerseys, socks and scarfs will be distributed through the naval branch of the Canadian Legion. Mrs. de Trafford reported a knitting committee busy at work with a good supply of garments on hand, and more to be knitted during the winter months.

The reports of the secretary and of the treasurer, Madame Claudet, who is also on the house committee, were heard with interest, and letters from headquarters were also read. Mrs. F. M. Snowdon and Madame Claudet gave an account of hospital visiting and funds for Christmas cheer in this connection were voted to these visitors. Calendars donated by the I.O.E. will be sent to the lighthouse, and arrangements for the annual Christmas dinner were considered, in consultation with Mrs. Rodway. Donations from several friends of the institute were gratefully reported.

Spiritual Bazaar Success—The ladies of the First Spiritualist Church held a very successful Christmas bazaar in Room 5, B.O.E. Hall, yesterday. Rev. Flora Frampton opened the affair at 2:30 p.m. There was a home cooking stall, attended by Mrs. E. M. Thompson and Mrs. H. M. Thompson. Mrs. Greenwood was in charge of the fancy work, Mrs. S. Brooker and Mrs. W. H. Campbell had charge of the variety stall. Afternoon tea was served by Mrs. J. Veness, Mrs. Livingstone and Mrs. Ford, assisted by several others. Tea-cup readings were given by Mrs. Frampton and Mrs. Malloy. Mrs. Yousen and Mrs. Johnson read cards, and Mrs. T. Allen psychographed articles. Both Mrs. Harrison, the president, and Mrs. T. H. Brooker worked hard to insure the success of the bazaar, which resulted in a substantial addition to the church funds.

After some chat with Mistress Castlemaine to turn the corner and straightway to "Hocking" Forbes Ltd., at 1006 Douglas Street. The just beyond Terry's Drugstore. Do have it in mind to give Samuel a new set of golf clubs for this Yuletide. The gift men do like and methinks it is a goodly plan to even start a fine set for someone by just buying even one club. Mister Hocking and Mister Forbes do make it.

Verie easy to do this very thing. If it be one club you want they do give goodly advice about its buying. They do have good clubs of all kinds and of all makes and of all prices. That do be of the finest materials. Myself, feel verie glad there be such a fine sporting goods shoppe within the towns where service and goods wares do be combined. Coming out do see a great show of badminton requisites. Some be as low as \$3.50. Methinks this do seem a verie reasonable gift.

Do hurry on to Wilfrid Gibson's Studio at 748 Fort Street. Mistress Peppys, Samuel's mother be so pleased at Mister Gibson's fine offer this Yuletide, she doth make up her mind to have her likeness taken. She hath five children and she doth plan for each. Mister Gibson will do this verie thing. He will finish but the number of pictures one doth want, or just what one needs. The prices, too, be so verie reasonable. A verie fine photograph doth cost but \$1.00; there be others, \$1.50, and Mister Gibson do have a verie special offer of a whole six, for \$3.50.

Back down to Douglas Street where on passing Fletcher's Music Shoppe do find a verie fine surprise. Find that Mister Gibson have but just taken over one half of this fine shoppe for the verie purpose of presenting Yuletide gifts to the people of this town. In special manner, the shoppe doth have a fine gift suggestions all spread out in fascinating array. Did stand sometime before a selection of goods fountain pens. There be small ones and large, black ones and many fine colors. There be the famous Waterman and the popular Parker. Was taken with a new Parker Vacuum—the rubber tube be eliminated and the tube be specially reinforced so its possible to turn it on its back and write for verie extra fine work. These pens be verie practical and withal an up-to-date Yuletide gift.

Lydia E. Pinkham's Vegetable Compound

Thursday, December 7.

Up betimes—and do at once to my window to see the weather. These days do be strange, one minute—rain, the next—sun. Myself, do not mind, for ever do I like the turbulent winter weather. The of Samuel I do think for animal children had run off to play in the woods before it would be dark and time for supper. They were going to be hungry for their supper even after having the pudding.

Uncle Wiggly picked up two pieces of the broken dish and held them over the cup of water before dipping them in.

## Sister MARY'S KITCHEN

BY SISTER MARY

Cod, smelts, halibut, haddock, turbot, scallops, oysters and clam are at their best during the winter months and they are delicious, economical foods too seldom used to their best advantage.

Scallops contain no waste and are easily cooked in the home kitchen. Cod and halibut often are available in the form of steaks, and although there is a small center-bone the waste is negligible. These fish contain no small bones and are therefore excellent for children.

Haddock generally is sent to market nowadays in "fillets." These are free from skin and bone and can be cooked in numerous ways.

A hearty fish dish which is suitable for the main dish for luncheon or supper combines two varieties of fish in an appetizing fashion.

Fish chowder and other warming dishes for cold days and winter combine two or more kinds of fish.

RICH SOURCE OF IODINE

All salt-water fish are good sources of iodine and are of great value in the diet. Children particularly need iodine and every effort should be made to make these varieties of fish attractive to them.

The serving of fish adds or detracts much. Broken plates tumbled onto a platter rarely find favor with the family. Nest, whole servings garnished with alfalfa or wedges of lemon are most appetizing. If you find it impossible to turn a whole or half a fish when broiling it, cut it in pieces that can be handled. These are really fillets of fish and nothing to be ashamed of.

The actual cooking of fish is very simple. Baking, broiling, deep-fat frying, pan-frying, steaming and broiling are used for different varieties of fish. The sauce and seasoning is of the most importance because fish is dependent on its seasoning for its palatability.

One slice halibut cut 1 inch thick, 1 slice cod cut 1 inch thick, 2 cups cooked rice, 1 cup tomatoes rubbed through sieve, 1 teaspoon salt, 1/2 teaspoon pepper.

Mix rice and tomato puree and season with salt and pepper. Put halibut in a well-buttered baking dish and cover with a thin layer of rice mixture. Add cod and cover with remaining rice. Bake 30 minutes in a hot oven. Garnish top with thin slice of lemon and

## Horoscope

SATURDAY, DECEMBER 9, 1933

Adverse planetary influences are active today according to astrology. It is a day of uncertainties and ill-advised moves. Under this rule men and women are inclined to accept false ideas and to exercise poor judgment. Confusion and mistakes may be prevalent.

It is not an auspicious time for starting anything, but the usual weekend recreation should be enjoyed.

The day encourages gossip and evil report, which extends to the least and to exercise poor judgment. Confusion and mistakes may be prevalent.

There is a sign supposed to encourage deceit and intrigue. Double dealing among politicians may be expected, astrologers declare.

Interest is strongly emphasized under this configuration and loyalty may be less general than it should be.

Women are warned that they may be easily flattered and fooled while this planetary government continues.

Damage suits against men of means will increase in number to such a degree that legislation will curtail protection for designing women. It is forecast.

The later hours of this day promise good luck to men who exercise authority. Mayors and governors should benefit in public esteem.

Honors for lawyers and university heads are promised. Diplomatic missions are predicted for the beginning of the new year. Jupiter favors the Russian bear, which will gain in strength, but it is menaced by an Oriental foe working secretly, the seers declare.

Persons whose birthdate it is have the augury of a year of personal problems that stir the soul, but they will be solved. Children born on this day probably will be exceedingly social minded and able to aid these in need. Subjects of this sign usually have talents that they use with practical effect.

Douglas Fairbanks Jr., film star, was born this day, 1907. Others who have celebrated it are—William H. Mason, John H. Johnson, and John H. Johnson.

## SOCIAL, PERSONAL AND HOME INTERESTS

## Man With a Thousand Masks

By Augustus Muir

The Dutchman picked up a large diamond, from which he had been removing the cement, and held it below the pallid rays of the lamp.

"I had finished this one," he announced.

He placed the stone on Tom Young's outstretched hand. It seemed to shimmer with a million lights, and white fire sprang from the heart of it—a pure brilliant heart, unflawed, untinged. It was a stone of superlative beauty; and Tom Young, who was a connoisseur of precious stones, held it up to the light with a glint of interest in his eyes.

Presently he gave a soft laugh.

"What a pity you are such a scoundrel, O illustrious Van Reuth!" he remarked.

Van Reuth, accustomed to such pleasantries, smiled. He had fallen foul of the police in his own country; and, escaping on a Dutch boat from Rotterdam, he found refuge with Tom Young, a person with whom he had previously done some business with the cutting and sale of precious stones.

"You are a genius, Van Reuth," said Young, looking at the diamond, his head on one side. "I do not wonder that once you were the most illustrious man of all your profession at Amsterdam. A lapidary so skilled as you is as rare as the eggs of the Great Roc!"

This stone must go to Amsterdam to-night. The Van Biesen sails on the morning tide, and I have a friend on board to take it as far as Antwerp; where your old friend Lachen will meet him. When will the other stones be ready?"

"Some of them in two days, some five. And the smaller ones—"

"Never mind the smaller ones," interrupted Tom Young. "Nobody will trouble to trace them. It is of diamonds like this that the watchful police will send descriptions abroad."

He looked at the stone that was gleaming on his yellow hand, then placed it on a delicate balance which stood inside a small glass case with a sliding door. Carefully slipping thin metal wafers on a tray, he pressed the brass lever that lifted the fulcrum until at length the long, swaying arm came to rest on the zero mark. Tom Young counted the tiny weights, and gave a little whistle of surprise.

"You have done wonders, Van Reuth! You have cut away so little—yet it is a new stone! Even Mr. Mellis would not recognize it as the diamond which our honorable friend removed from the safe in Hutton Garden three weeks ago. I will reward you well for this, old dog!"

His hand went out, and, grasping the Dutchman's shoulder, he shook him violently, then flung him back against the table with a laugh.

The Dutchman gave a rueful smile.

"My friend is in a happy mood to-night," he grunted, rubbing the shoulder where Young's strong fingers had bitten into the flesh.

"You are wrong," said the other. "I am in no mood for frivolous amusement. I have had news for you, Van Reuth. These last three months you have been safe here with me, safe from the police of your own country, but I think the time may come—"

Tom Young was pacing slowly up and down the floor, and the Dutchman's small bright eyes followed every movement.

"You will not send me away, Mr. Young?" he said miserably.

Tom Young swung round to the stout figure of the Dutchman, whose skin had an odd pallor under the clearwhite rays of the lamp overhead.

"I like you, Van Reuth," he said at last. "You have been square with me, and our honorable friend would wish me to reward you adequately. But I have a presentiment that trouble may come to us. I have had a warning that the vigilant police are too often watching near the Heart's Desire these days."

"The police!" said the Dutchman in a whisper. Tom Young nodded.

CHAPTER XLVIII

"Our honorable friend snaps his fingers at the police. They never will get him. But they may get others, such as ourselves, who help him."

Downstairs in his own room, Tom Young continued his meditations in front of the fire. But presently his train of thought was interrupted. The cullen-faced man called Jack opened the door and without ceremony hurried across to the motionless figure on the hearth. He whispered a rapid message.

Tom Young sprang to his feet and stared at the other, then laughed.

"The police have surrounded the place? It is ridiculous!"

"It's true, I tell you," panted the other. "A couple of them have just come in and asked for a drink. I know the cut of their jib all right."

## 8 RULES to avoid COLDS

No. 1 Avoid close contact with others suffering with colds.

No. 2 Don't use towels, drinking glasses, or dishes used by cold sufferers.

No. 3 Avoid long exposure to wet or cold, sudden changes of temperature, and keep out of draughts; all lower resistance.

No. 4 If feet or clothing get wet, change to dry shoes and stockings and garments as soon as possible.

No. 5 Exercise regularly, bathe frequently, and sleep 8 hours a night.

No. 6 Dress adequately—that is, suit your clothing to the weather.

No. 7 Have infected teeth, tonsils and adenoids removed.

No. 8 Keep the mouth clean with the twice-a-day gargle with LISTERINE.

—and after exposure

## GARGLE LISTERINE

Why do so many women catch cold after a shopping tour? . . . Why do children usually develop colds at school? . . . Why do men come from the office with sniffles?

Either they catch cold from others suffering from colds, or subject themselves to exposures which make it easy for colds to develop.

Damp, cold, or wet feet, bad air, going from warm rooms to the cold of the outdoors, standing or sitting in draughts—all are important predisposing causes of colds. All weaken body resistance. Consequently germs in the mouth and throat get the upper hand.

Then of all times, the gargle with Listerine is needed. Sweeping over the surfaces of the teeth, gums, mouth and throat, it kills germs associated with cold and sore throat—keeps them under control.

Time and time again the prompt use of Listerine has warded off trouble.

The moment Listerine enters the mouth its work of cleansing and germ-killing begins.

Millions of bacteria are killed instantly. Within 5 minutes, reductions of as high as 99% have been observed.

And even at the end of 4 hours, reductions in the number of germs of as high as 64% have been noted by oral authorities.

Such lasting effect explains the international preference for Listerine by doctors, nurses, and the public. Don't expect such results from ordinary mouth washes, sold as so-called bargains. Use Listerine only. Lambert Pharmaceutical Co., Toronto, Ont.

## CANADA MUST FIND OWN WAY

World Has Advanced Materially Faster Than Spiritually, Says Prof. C. W. Topping

"Britain can muddle through the depression with her great traditions of social service which extend through every class of society, Canada, having no such traditions to hold her, cannot do so, and must set about the problem in a different manner," said Professor C. W. Topping, associate professor of economics and sociology at the University of British Columbia, speaking on the subject of "The Social Engineer in Community and in Public Service" at the college yesterday evening before the University Extension Association.

The situation on the American continent must be dealt with deliberately, not in the haphazard manner which has succeeded under different conditions in England. There must be certain objectives and standards set and recognized before social work could begin.

The main objective was to man the vast institutions of society, the family, the business, the press, with people of sufficient calibre to overcome the dangers to modern social development, readjustment, and the lag of one side of development behind the other. There is a tendency in every progressive society for the material structure to develop faster than the psychological structure, and the lag of one side of development behind the other.

The objective must be to insure that all sides of the social structure should move together without lag, for disjunction in one community and repercussions in others. There were three great standards: aptitude, motivation, and training. Dealing with aptitude, the speaker said that democracy had never suggested that all men had equal capabilities; its true doctrine was that all should have equal opportunities of exercising their own particular aptitude. In addition to this it was essential that people should employ that aptitude in the public service. "No man liveth unto himself" was the burden of the motivation question. It did not matter in what way character was to be got into the future public servant, but it must be there.

## DUNCAN RELIEF LIST SMALLER

Duncan, Dec. 8.—A good indication that conditions are improving is the reduction of the figures of provincial government relief for a year ago and for the last month. In November there were thirty heads of families and three single men registered, as against ninety-one heads of families and 174 single men, including Duncan and Chemainus, registered in December, 1932.

A steady decrease has been noted since February last when figures were believed at their highest with 127 families and 310 single men on the rolls. Last January there were 109 heads of families and 198 single men registered.

## Chemainus

Chemainus, Dec. 8.—Results of basketball games played here Monday evening were as follows: Nanaimo senior men beat Chemainus senior men 30 to 25. Nanaimo senior ladies beat Chemainus senior ladies 25 to 12. Duncan junior boys beat Chemainus Green Lantern boys 20 to 20. After the basketball refreshment were served followed by a dance.

On Tuesday afternoon the Porter Chapter, I.O.G.E. held the regular monthly meeting at the home of Mrs. A. P. Wood, Salfair.

A communication was read on the national endowment fund and it was decided that nothing could be done by the chapter at present. A patchwork quilt and clothing were donated towards the Baptist sale for the needy which will be packed this week and sent to Vancouver. A wool quilt will be raffled and the funds used for Christmas cheer. Tea was served by Mrs. Wood who was assisted by Mrs. Allan Porter.

## NANAIMO

Nanaimo, Dec. 8.—Nanaimo Liberals and supporters will hold a reception in the Foresters' Hall, Friday evening in honor of the Hon. George S. Pearson, Minister of Mines and Labor. The reception will be in the form of a concert, supper and dance.

The monthly meeting of the Malaspina Chapter, I.O.G.E., was held Tuesday evening at the home of Miss Edie Cairns. It was reported that \$35 had been donated to the Christmas Cheer Fund and fifty calendars distributed to the local schools.

A large crowd heard a programme presented by the St. Anne's Convent younger pupils at the convent Tuesday night. The programme consisted of tableaux, recitations, dialogues and choruses.

The Nanaimo rugby club will journey to Vancouver Saturday to meet the Marpole fifteen in a second division league game.

## SAWYARD

Sawyard, Dec. 8.—Resolutions covering the cost of money sent to isolated districts without access to any of the highways of the province, and the construction of the proposed extension of the Island Highway north from Menzies Bay, by unemployment relief work, were passed at the regular meeting of the Sawyard Farmers' Institute held at the Community Hall Saturday.

Dr. H. G. Marks brought his boat up the Salmon River Thursday and tied up to Sach's landing.

A black bear recently visited Armistead's and Sach's orchards. He broke into Sach's meat house and dairy. The last visit was in the basement where he tore strong wire screening.

A meeting of the Victoria and District Cornish Association will be held to-morrow evening in the Macabees Hall, Fort Street, at 8 o'clock. All members are asked to attend.

## Hears from Buenos Aires by Radio

Duncan, Dec. 8.—The rare treat of listening to Buenos Aires on an ordinary tube radio set was experienced last week-end by E. M. Keel, Eagle Heights.

Duncan. A good programme was received and with good volume from L.R.S. at Buenos Aires.

## TAYLOR GLAD LEAVING IS IN

Vancouver Mayor Arrives for Union's Conference With Government

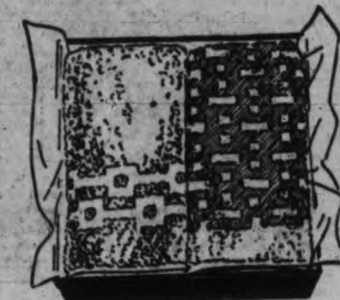

Mayor Taylor of Vancouver, accompanied by his nurse, Miss K. Frederic, reached the city yesterday from the mainland to attend the Union of B.C. Municipalities conference with the provincial government.

Mayor Taylor was in the best of spirits. It is necessary for him to guard his health closely, following lengthy illness, and he seldom goes on an extended trip without his nurse. Despite the campaign which he unsuccessfully waged in Omicoma against A. M. Manson, K.C., the Vancouver mayor says he is feeling fit. He was over at the buildings yesterday to pay his respects to Premier Pattullo and the members of his cabinet.

Mayor Taylor has another year to fill as chief magistrate of Vancouver, so he is not worrying about municipal politics. "What is going here?" he asked the reporter concerning the Victoria municipal elections. "I am glad to hear that," he replied on being informed that Mayor Leeming had been returned by acclamation for his third term of office. "I would like to extend my congratulations to him."

Aid. W. W. Smith, chairman of the Vancouver relief commission, is also here with Mayor Taylor.

## REEVE PROPOSES STARCH FACTORY

Head of Surrey Municipality Seeks to Aid Potato Growers of Province

Establishment of a starch factory in the province to handle the surplus crop of potato growers, thereby aiding in better grading, is a proposal submitted to the government by Reeve J. T. Brown of Surrey, who is here with the executive of the Union of B.C. Municipalities.

Reeve Brown pointed out that the growers were greatly in need of an outlet for their surplus and culls which sometimes constitute as much as 50 per cent of their crop. In culls alone, there are approximately 10,000 tons produced annually in the Fraser Valley. The most logical and profitable way to recover this loss was in the manufacture of potato starch and flour.

In the potato-growing areas of Maine, Wisconsin and Prince Edward Island, starch factories were well established industries, he said. They enabled the growers to grade crops better by only offering the best grades for market, knowing they would dispose of the under grades and culls at a price that would cover the cost of labor and handling.

As far as the market for the starch was concerned, Reeve Brown declared that one firm in B.C. alone used 100 tons of starch annually, and this would require 1,000 tons of potatoes for production. He also believed Australia and New Zealand would offer a ready market. Canada now imports 10,000,000 pounds of starch annually, he pointed out.

Figures on the cost of production

were submitted by the reeve, who said a factory could be built and equipped for \$6,000, which would handle twenty-five tons of potatoes in eight hours. This could turn about 5,000 tons of potatoes a year into starch, and thus keep approximately \$50,000 within the province.

## LANGFORD

A silver tea and Christmas sale took place on Wednesday afternoon at the home of Mr. and Mrs. D. B. F. Bullen, Station Road. The visitors were welcomed by Mrs. H. A. Hinks, president of St. Matthew's Guild, and Reverend A. R. Acherson. The sale was a success.

The December meeting of the St. Matthew's Guild will be held on December 14, at Holmwood.

The annual meeting of the Langford Women's Institute will be held on December 12, in the hall on Dunford Road.

Sunday school will be held at 10 o'clock every Sunday morning in future in St. Matthew's Church.

The fifth card party of the Women's Institute on Wednesday evening was well attended. Progressive bridge was played. Mrs. Z. Huse and W. Hamilton were the prize winners while Mrs. P. N. Welch and Miss Marjorie Ashman obtained the consolation awards.

## Great Central Lakes

Great Central, Dec. 8.—Mrs. Bruce Parris is spending a week at Vancouver. Victor Palmer, Victoria, is visiting in the district.

Percy Wills, of the Shantymen's Christian Association, conducted a service here Sunday evening, when a large congregation was in attendance.

## TO NOMINATE FEBRUARY 14

Liberals of Nanaimo Federal Riding Prepare for Next Election

Liberals of the Nanaimo Federal riding will nominate their candidate for the next Dominion election contest on February 14 at Duncan. It was decided at an organization meeting held at the up-Island town on Wednesday.

A great deal of enthusiasm was displayed at the meeting, which was attended by forty-two delegates representing all sections of the riding. Gratification was expressed at the recent swing to Liberalism shown in this province.

Norman Whittaker, the new provincial member for Saanich, and Alex McDonald, the new member for The Island, spoke at the meeting, as well as C. E. Whitney-Griffiths, who represented the party in the provincial election for Esquimalt. Hon. George S. Pearson, Minister of Labor and Mines, was unable to attend but sent a message conveying his regrets.

In the last Dominion redistribution bill, the Nanaimo riding was changed and the gathering was held for the purpose of organizing the new district.

## LIGHT CHAIN TO BE FORMED

Victoria Branch of Toc H Will Take Part in Spectacular World Ceremony

The Victoria branch of Toc H will form part of the World Chain of Light next Monday evening in Christ Church Cathedral. It was announced this morning.

December 11 is the anniversary of the actual opening of Talbot House in 1915. The idea of a "World Chain of Light," first conceived by Toc H Australia, in 1928, and now being adopted for the fifth successive year, is extremely simple. The little party of Toc H members, representing the younger and older generations, at home and overseas, which crosses to Poperinghe on that day, will assemble in the upper room at 9 o'clock to hold the ceremony of "Light," which forms the first link in the world chain. For the next twenty-four hours, during which the light is traveling from unit to unit round the earth, the lamp at Poperinghe will be maintained continually alight. This maintenance will be the duty of the party, keeping vigil by two and three in turn as the hours go by through night to morning and on through the day to evening again. And as they keep watch before the lamp they will have in their thoughts and prayers their fellow members of Toc H in that particular part of the world where it is 9 p.m., and where men stand to their lamp or rushlight, faithful links in the chain.

A good many members, however, seem still puzzled as to how it actually works. Some, for instance, picture all the lamps and rushlights of the world-wide family being lit everywhere. This would be dramatic but it would not be a "chain," forged link by link, and it would be difficult to carry out. For when it is 9 p.m. in Poperinghe or in England, it is 3 a.m. in Calcutta and 3 p.m. in Manitoba—awkward hours to assemble members for a lamp-lighting. The chain of light, as its name implies, is made by the lighting of the lamps and rushlights in regular succession. "Link by link" so to speak, right around the world—starting from the lighting of the first lamp at Poperinghe at 9 p.m. one night and ending there at 9 p.m. twenty-four hours later, when the light is received back after its world-journey.

Each link of the chain will be lighted at 9 p.m. by the clock in its own particular place.

## DUNCAN BOARD LOWERS FEES

All Students Attending High School Granted \$15 a Year Reduction

Duncan, Dec. 8.—The regular meeting of the Duncan Consolidated School Board was held Tuesday evening, with Trustee D. T. Smythe in the chair. The resignation of Miss Nelson was accepted with regret, and the secretary was asked to write her a letter expressing the board's appreciation of her services during the time she had been in Duncan. John E. Hanna, Vancouver, has been appointed to fill the vacancy at a salary of \$800 per annum.

A special committee of Col. McLaughlin and A. J. Castle, appointed to look into the question of high school fees, recommended that the fee for outside pupils be \$65 per annum instead of \$80, as at present, starting on February 1 next. The fees will be reconsidered annually, and will be based on the cost of the school. All cases where two students come from one family, both of whom are subject to payment of fee, will have a reduction of 10 per cent of the total fee, and if there are three students in one family a reduction of 15 per cent. This recommendation was adopted.

The North Cowichan council had approached the board in regard to a proposed variation of the northern boundary of the school district, but the board felt that it was not a matter for their consideration. The agreement is between the North Cowichan municipality and the city of Duncan.

The matter of purchasing records for musical instruction was left in the hands of the supplies committee.

## North Cowichan To Have Surplus

North Cowichan, Dec. 8.—A surplus of approximately \$5,000 for North Cowichan municipality at the end of the year was forecast by the council at a meeting Wednesday. H. M. Ansell clerk, presented a report of finances in which he estimated that the present bank balance and revenues to come in, would cover November and December accounts and other expenses with about \$5,000 over.

## Conservatives of Shawnigan Meet

Shawnigan Lake, Dec. 8.—The annual general meeting of the Shawnigan Conservative Association was held in the S.I.A. Hall Wednesday evening. Dr. C. A. Boyd, president, gave a report of the year's work. S. J. Head, secretary-treasurer, also gave an interesting report.

Dr. Boyd was re-elected president; W. P. Gooch, vice-president; and S. J. Head, secretary-treasurer. An executive of fourteen was elected from the membership. C. H. Dickie, M.P., and R. H. Pooley, M.P., were elected honorary presidents. A vote of confidence in R. H. Pooley, member for the district, was passed and a vote of thanks given to the officers of the association.

## Port Alberni

Port Alberni, Dec. 8.—Mrs. J. B. Wood was a bridge hostess at her home on Wednesday evening last, when she entertained with four tables in play. The guests included Mrs. C. T. Hilton, Mrs. C. Wise of Qualicum, Mrs. R. J. Burde, Mrs. W. E. Evans, Mrs. P. Weaver, Mrs. C. E. Cook, Mrs. C. McL. Fry, Mrs. H. B. Carter, Mrs. G. W. Richardson, Mrs. Gordon Campbell, Mrs. A. W. Nell, Mrs. W. W. Stevens, Mrs. A. H. West, Mrs. F. Wilson, Mrs. W. Ayres, and Mrs. J. A. McMillan. Prizes were won by Mrs. J. A. McMillan and Mrs. P. Weaver.

Miss Christine Sutherland entertained with two tables at her apartment at The Carmoor on Tuesday evening, when the guests present were: Mrs. W. W. Stevens, Miss Bernice Manning, Miss Daisy Probert, Miss Alberta Hobson, Miss Blanche Wood, Miss Evelyn Hanes and Miss Helen Wood. Prizes were secured by Mrs. W. W. Stevens and Miss Hobson.

Complimenting Mr. and Mrs. Reece Hague, Mrs. J. L. Dunn was a dinner and bridge hostess at her home on Wednesday evening, when covers were laid for the highest score at bridge were won by Mrs. Hague and Harry Carter.

Dr. C. T. and Mrs. Hilton have as their guest the latter's sister, Mrs. C. Wise of Qualicum.

## FARMERS PASS RESOLUTIONS

Many Subjects Before Vancouver Island and Gulf Islands Members

Opposition to the spending of public money for "back to the land" movements and caution on marketing legislation on the grounds that most attempts to control the price of agricultural products by legislation had failed, were among the resolutions passed at the afternoon session of the Vancouver Island and Gulf Islands district of B.C. Farmers' Institutes yesterday afternoon.

Most of the other resolutions referred to yesterday were endorsed. The meeting went on record in favor of revision of land taxation, creation of a debt adjustment board to relieve farmers who contracted obligations when the price of agricultural products was much higher than at present, lower domestic freight rate on poultry feed, brans, shorts and middlings; extension of time on farm loans; reduction of high interest rates; increased debt exemptions; extermination of muskrats; inclusion of Vancouver Island in the T.B. free area, and amendment of federal regulations so that apples may be sold in new small boxes of between fourteen and seventeen pounds in weight.

## STRAWBERRY VALE

A complimentary supper, sponsored by the members of the Ladies' Aid of Wilkenson Road United Church with the assistance of members of the church, was given in the schoolroom of the church Wednesday evening to Mrs. S. Jones, who recently returned from a visit to Ontario.

At the conclusion of the supper Mrs. A. E. Campion, the president, spoke with appreciation of the help that Mrs. Jones had been in all branches of the church work. Little Nancy Williamson presented Mrs. Jones with a beautiful bouquet of chrysanthemums on behalf of the Women's Auxiliary.

## The STORY of Christmas

And the shepherds came with haste and found Mary and Joseph; then, also the baby, lying in the manger; and they made known abroad all that which had been told to them concerning the child.

## Duncan

Duncan, Dec. 8.—The regular monthly meeting of the Cowichan Chapter, Imperial Order Daughters of the Empire was held in Duncan Wednesday. Expressions of sympathy to the regent in her illness were given and flowers were sent to her from the chapter. Reports were presented by the educational committee, health centre, hospital and relief committees. Arrangements for the chapter's stall at the community bazaar were discussed. Mrs. N. E. Suddaby, Fernie, was welcomed as a new member.

The report of the Cowichan health centre for November showed 628 general nursing visits made and ninety-six visits to schools, with 721 inspections by nurses and 320 examinations by medical health officers.

## PROVIDE SHOES FOR CHILDREN

Ward Two Saanich Ratepayers Raise Funds to Supply Needy

Children in Ward Two, Saanich, who are in need of shoes, will receive them from the Non-political Ratepayers' Association of the ward which yesterday evening raised a substantial sum by a benefit concert at Lake Hill Community Hall, to devote towards purchasing them.

An excellent programme was presented by a talented group of artists who donated their services in aid of the worthy cause, and the numbers were generously applauded by the large audience.

School Trustee Walter P. Jeune, chairman, introduced Mrs. Ross Semple, Charles Dallimore, Alex Stewart, Halina Slavina, Arthur Jackson, Miss M. Glendenning, L.A.B.; Cleland Jeeves, John Hooper, pupils of Miss Mona Jewell and Sonia Slavina, L. LeFranc, Alex Semple, Miss Phyllis Deaville and Robert Warren.

Those contributing to the programme were: The Mendelssohn Orchestra, Kathleen Langley, Albert Colby, Mrs. Ross Semple, Christopher Hollier, Alex Semple, Charles Dallimore, Alex Stewart, Halina Slavina, Arthur Jackson, Miss M. ## Former Yukon Resident Dies

Robert J. Ogburn, eighty-one years of age, whom many Alaska and Yukon people now in Victoria remember in the early days of the north, died in Seattle early this week from injuries received in an automobile accident.

Before "coming out" several years ago, Mr. Ogburn lived most of his life in the Yukon, for many years being connected with the postal department in Dawson City.

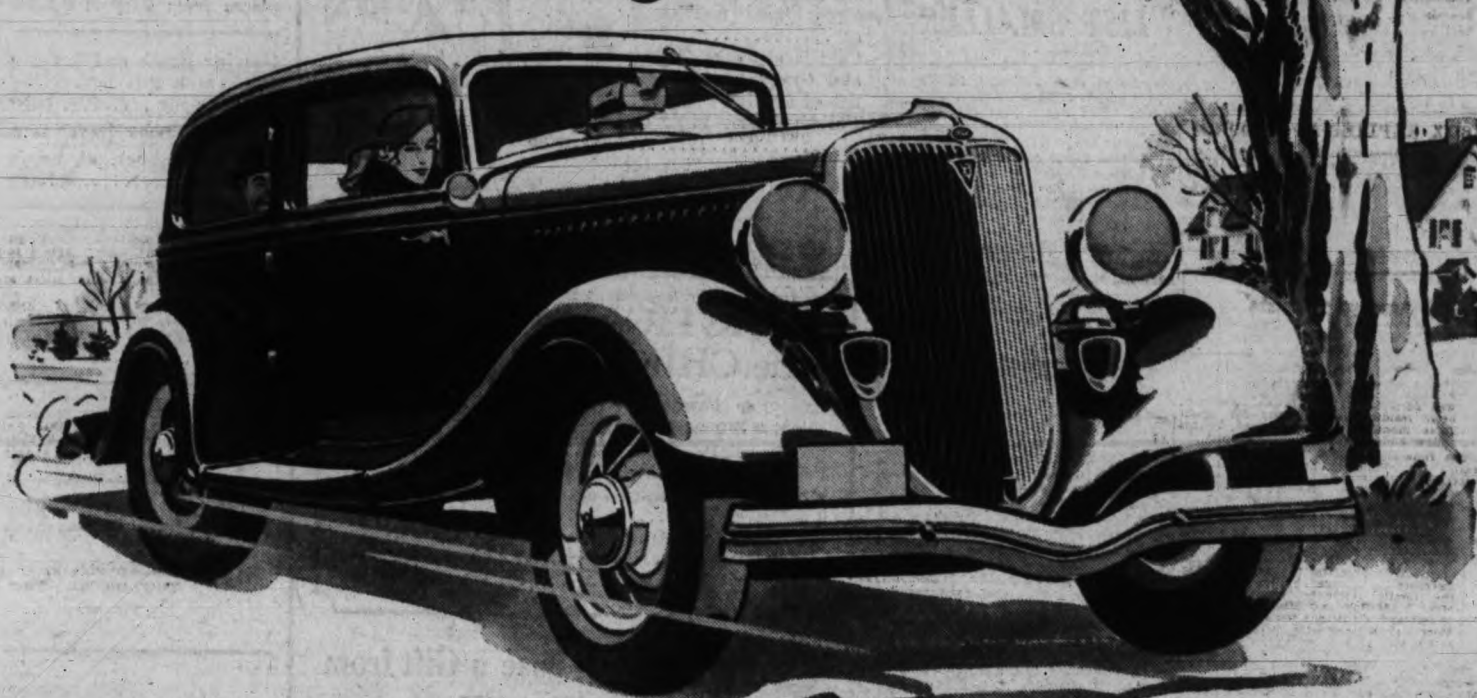

Besides a widow at the family residence in Seattle, the late Mr. Ogburn is survived by two daughters, Mrs. D. E. O'Keefe, Seattle; Mrs. Edward Madocks, Vancouver; one son, Bert Ogburn, Dawson, and a nephew, Frank Mellan, Victoria.

## NANAIMO NOTES

Nanaimo, Dec. 8.—Nanaimo Public School pupils had \$100 distributed among them Wednesday from the education department for returned text-books. It is estimated that the department saved \$400 on the transaction.

Mrs. T. R. Jackson was elected president of the St. Andrew's United Women's Missionary Society at the annual meeting held at the home of Mrs. W. F. Drysdale, Newcastle Townsite. Other officers elected were: Hon. president, Mrs. W. P. Bunt; vice-president, Miss A. Clements; secretary, Mrs. F. W. Barker; treasurer, Mrs. R. T. Coveney; missionary secretary, Mrs. J. Whyte; supply secretary, Mrs. C. H. Stockwell; mite box secretary, Mrs. Mahwinny.

## NEW FORD V-8 for 1934

THE UNIVERSAL CAR

The New Ford V-8 for 1934 will be on display tomorrow at the showrooms of Ford dealers. Surpassing even the great Ford of 1933 in economy, beauty and comfort, it is truly the car of this modern age—the culmination of thirty years Ford progress. It combines the proved performance of the V-8 cylinder engine with two important new features—Dual Carburetion and perfected Clear-vision Ventilation. See it and drive it at the first opportunity.

## OUTSTANDING IMPROVEMENTS IN THE NEW FORD V-8

**BETTER PERFORMANCE.** Greater power, new speed, quicker acceleration, smoother performance, more miles per gallon especially at higher speeds, and quicker starting in cold weather—all these result from the new dual carburetor and dual intake manifold. New waterless thermostat and thermosyphon intake manifold best control enable the engine to warm up more quickly and to maintain an efficient operating temperature. Added engine refinements reduce oil consumption, further improve operating economy and reduce maintenance costs.

**NEW VENTILATION SYSTEM** permits clear vision, prevents drafts and provides desired amount of fresh air in any weather. Individual control for front and rear side windows. When ventilation is desired the window glass is raised to the top. Then the handle is given an additional half-turn. This slides the glass back horizontally to form a narrow slot, as illustrated.

**Through this slot air is drawn out by the forward motion of the car. This simple ventilation system maintains draft-free circulation, insures passenger comfort, prevents fogging windshield in cold or stormy weather. Both windshield and cowl ventilator can be opened to supply additional air needed for comfortable warm-weather driving.**

**DISTINCTIVE NEW APPEARANCE** enhanced by the newly designed chromium-plated radiator shell and grille, new hood louvers, new hub caps. Interiors are attractive, with new tufted upholstery, new mouldings, new cove-type headlining, new instrument panel, new arm rests, new hardware. Swivel-type sun visors in De Luxe bodies prevent glare from front or side.

**FENDERS IN COLOR.** De Luxe car fenders are in color to match with body colors—wheel colors optional.

**GREATER RIDING COMFORT.** Exclusive Ford transverse cantilever-type springs have great flexibility, giving unusual riding comfort. Road shocks are absorbed at outer flexible ends of springs. Seat cushions are deeper, with new, softer springs. New type, individual bucket seats provide increased comfort for front-seat passengers in the Tudor Sedan. Adding to comfort is the new driving ease of the 13-4-1 steering gear ratio.

**PRICES REMAIN LOW.**—Tudor Sedan \$710, Fordor Sedan \$780, De Luxe Tudor \$755, De Luxe Fordor \$820, Coupe (5 windows) \$885, De Luxe Coupe (5 windows) \$730, De Luxe Roadster \$705, De Luxe Phaeton \$890, Cabriolet \$755, Victoria \$815 (all prices f.o.b. East Windsor, Ontario; bumpers, spare tire and taxes extra).

## ADMISSION BY TOY OR FOOD

## Boy Scouts Holding Big Show at Capitol Theatre Tomorrow Morning

A toy or can of food or both, will be the admission price to the special performance being put on at the Capitol Theatre to-morrow morning at 9.30 o'clock, for the benefit of the Boy Scouts' 10,000 toy campaign. The programme, which is equally suitable for young and old, is billed to last two hours, and includes three films and a stage show.

Mrs. Dorothy Wilson's Russian Ballet School has undertaken to provide the stage performance. The three films are: "A Laurel and Hardy comedy, entitled 'The Music Box,' an 'Our Gang' comedy called 'Reading and Writing,' and 'Beaver People,' a Dominion Government educational picture.

In the expectation that the toys and cans will make a large pile, R. Williams, of the Alert Transfer Company, has undertaken to remove them to the Scout headquarters in the Hibben-Bone Building, where the food will be turned over to the Friendly Help Welfare Society for inclusion in their Christmas hampers, while the toys will, if necessary, be repaired and redecorated by the scouts.

There is no obligation for the toys to be used, it is equally permissible for a new airplane to be bought from a store ten minutes before the show as for an old doll to be dragged out of a corner of the basement. The size of the contribution is of course at the donor's discretion; the scouts would like it large, but there will be no discrimination in admitting patrons because of what they bring.

There will be many who, while wishing to attend and help the scouts, find it impossible owing to office hours. The Hibben-Bone Building is open early, and the organizers of the drive will be grateful if such business people will call in to make their contribution on the way to work.

It makes little difference to the

donor whether the gift is made early or late, but it is a matter of enormous importance to the scouts. There is no time to be lost, and the closing date of the drive cannot be postponed, being only two days before Christmas. Also paint takes time to dry.

"Point is the scouts' greatest requirement at present. If anyone doubts the importance of paint in this campaign, let him visit the Hibben-Bone Building and watch old toys becoming bright as new.

The toys will be distributed by the scouts themselves in Victoria and by the Friendly Help Welfare Society in Saanich, Esquimalt and Oak Bay. It is understood that mothers will be allowed to pick for themselves the gifts which they consider suitable for their families, while the scouts will distribute where necessary.

In the centre of the three attractive windows of the Hibben-Bone Building are a dozen teddy bears. These were presented by an elderly lady after reading "The Times" in the room. The scouts hope that others will bring similar presents, and pack the building to the ceiling with every kind of good thing that they would not like their own children to be without.

**"ANN VICKERS" AT CAPITOL MONDAY**

The Capitol Theatre management to-day announced the booking of the screen version of Sinclair Lewis's popular novel, "Ann Vickers," for showing here commencing Monday next.

Irene Dunne and Walter Huston take the leading roles and are supported by Mrs. Dorothy Wilson, Conrad Nagel and Bruce Cabot. This above-the-average very popular here due to the wide circulation of the original novel.

**PLAYHOUSE THEATRE**

"Rome Express," the Gaumont film distributed by Universal, will all of its action taking place on the train bound from Paris to Rome within the space of twelve hours, rivaling in interest those unusual pictures, "Shanghai Express," "Grand Hotel" and "Union Depot," is showing at the Playhouse Theatre. The situations are amazing, the characters absorbingly diverse, and the setting unique. Added to this is the splendid acting of such stars as Esther Ralston, the blonde Mrs. Davies of "Peter Pan" memory, who makes her return to the talking screen in "Rome Express," and Conrad Veidt.

**DOMINION THEATRE**

Allen Riffin, one-time Olympic diving champion, and now a professional, is among the girls appearing in the underwater sequences for "Footlight Parade," the Warner Bros. musical special which is showing at the Dominion Theatre.

Dorothy Poynton, winner of the diving championship in the last Olympics, is another.

dividuals of the present generation, that is his aim.

The Lord Jesus Christ says to the believer: "In this world ye shall have tribulation, but, be of good cheer; I have overcome the world!" The Scriptural way to happiness on earth, with peace and contentment in spite of tribulation, trials and temptations is through Him who gives "the peace of God which can make one say: 'Yes, though I walk through the valley of the shadow of death, I will fear no evil, for Thou art with me. Thy rod and Thy staff they comfort me!'"

It is a peace that wealth can not buy, nor poverty can take away; the peace of which the Saviour says: "Peace I leave with you. My peace I give unto you; not as the world giveth, give I unto you. Let not your heart be troubled, neither let it be afraid. I will never leave you nor forsake you. I am with you always, even unto the end of the world. Amen!"

Whereas Mr. Wells's utterances are so many and so emphatic, and his hope for the future gives the se-

curity and safety of a straw to a drowning man, God in His Word offers man a "hope as an anchor of the soul, both sure and steadfast," which will never fail nor disappoint; to wit: The Lord Jesus Christ!

On the peace my Saviour gives, Peace I never knew before. And my way has brighter grown, 'Since I learned to trust Him more!" L. J. REEMAN.

**ST. AIDAN'S UNITED CHURCH**

To the Editor:—The minister and congregation of St. Aidan's United Church desire to express to the Victoria Daily Times their appreciation of the generous publicity given in your columns concerning the task which has been proceeding during recent months of renovating and reconstructing their church edifice.

This work was undertaken at the present time for two reasons: First, because of the opportunity to secure beautiful colored windows, fine doors and other material from a large residence which was being torn down at a very low figure. Second, because there were many men out of employment, who were glad to accept work on this task, which is now completed, and all who have contributed to the wonderful and inspiring results obtained.

The total cost of the scheme is \$2,285. It is understood that the results are worth, at least, \$2,000. There have been received to date, or guaranteed, \$1,302, leaving a balance of \$983 yet to be obtained.

Employment has been given to eleven different men, who will receive \$500.00, though they have generously donated to the cause. Business has been given to twenty-one local firms, amounting to \$1,485.

Rev. H. J. Armistead assumed a large share of the responsibility of this task. The congregation has given splendidly, as have a number of friends throughout the city. Mr. Armistead would very much like to be in a position to pay the balance of the cost, Christmas, and also to devote the money to whom accounts are owing, most of whom have given liberal discounts.

Beautiful, and creating employment for needy men and their families, contributions worthy of support, contributions would be gladly received by me. (Rev.) H. J. ARMISTEAD, St. Aidan's United Church, Victoria.

**BOXING DAY**

To the Editor:—The obvious solution to the problem of Boxing Day is to have it proclaimed a public holiday, which could well be done, seeing that Christmas Day is a sacred festival rather than merely a day on which no business is done.

That the stores should close would be to show the real Christmas spirit rather than that of a sadly commercialized and materialistic holiday. Yuletide, especially bearing in mind the extended hours of the week preceding the natal day of our Lord and Saviour Jesus Christ, and remembering the strain and stress involved in the store upon the staffs, which could well be done, seeing that Christmas Day is a sacred festival rather than merely a day on which no business is done.

IS DESCRIBEDA. S. Averill Speaks to Association on Activities of  
Geneva Body

The League of Nations, the annual upsurge of which costs only one-fifth the price of a battleship, has been instrumental in stopping five wars and six probable conflicts. A. S. Averill, one of the vice-presidents of the League of Nations Society in Canada, Victoria branch, told members of that organization at a meeting in the Macabees' Hall yesterday evening.

Canada was regarded as an especially valuable member of the League, since its delegates could interpret to the others the attitude of the United States. As a consequence, a great responsibility rested on the government of Canada in the matter of world peace, the speaker said.

The League's apparent weakness had been caused by the refusal of the

United States to enter it after that nation had been one of the chief promoters of the idea. Mr. Averill said, indicating the United States was unwilling to accept the responsibilities of membership.

In his opinion the League had more than done justice to its existence. He saw as two of its most important branches the Permanent Court of International Justice and the International Labor Office.

Speaking of the work that had been accomplished by these organizations, the lecturer told of eighteen decisive judgments and twenty-five judicial opinions on international matters that had been handed down by the Permanent Court during the last twelve years.

In some detail he referred to the preventive methods adopted by the League in its treatment of bellicose factions.

The lecture was the first of a series to be given during the winter months before the Victoria branch of the activities of the League.

The speaker enlarged on the scope of the League Council and committees, and by means of lantern slides illustrated their address.

The chair was occupied by Dean Quinton, president of the local body, who also spoke briefly before introducing the speaker.

Prof. F. H. Soward of the University of British Columbia is expected to give the next address to the gathering on January 4.

The following were elected as officers: President, Colin Moutat; vice-president, Cyril Wagg; secretary-treasurer, Leslie Jenkins; committee, George St. Dennis and Elmer Beddie. The association plans holding monthly meetings.

BUDGET WILL  
BE BALANCEDOak Bay Church May Have  
Expenditures Equalled in  
Cash Receipts

Indication that the Oak Bay Council will balance its 1933 budget in cash was given at a meeting yesterday afternoon, when it was learned that disbursements had not yet exceeded current collections, and that by economizing during December, the council might be able to finish the year with expenditures not exceeding receipts.

According to a statement of finances presented to the council, receipts to the end of November totalled \$288,644. The estimated receipts for the year total \$299,647. Of the former amount, \$172,287 has been derived from tax collections, which compares with \$172,579, the estimated total collections for the year, based on 85 per cent of collections.

It was intimated this morning that since the end of November the council has collected the difference between the receipts and the estimated receipts of tax collections.

Expenditures to the end of November totalled \$271,368, against the estimated gross expenditure of \$280,000. It is consequently expected that the budget will finish well within the year's estimates, but every effort will be made to balance it in cash and avoid borrowing from surplus funds.

December is generally considered a high month as far as finances are concerned, as there are quarterly, half-yearly, and at least one yearly charges to be met.

Co-operation in economy between the council and the school board, has, however, enabled the municipality to be considerably during the year, and there is a possibility that a budget balanced in cash may result from these co-operative efforts.

HUNTER DIED  
IN ACCIDENTAccidental Death Is Verdict of  
Investigation on Freeman  
Brynjolfsson

According to word received from Prince Rupert, a coroner's jury yesterday returned a verdict of accidental death over the remains of Freeman B. Brynjolfsson, native son of Victoria, who was shot when mistaken for a deer while hunting near Butedale on Wednesday.

The jury found that Mr. Brynjolfsson came to his death on board the power boat "Norah Jane" on which he had been taken out on a hunt. He had been taken out on a hunt. He had been taken out on a hunt.

The two men were hunting and were distinguished by a mark in the woods. Hanson stated he mistook his companion for a deer.

The femur of the thigh bone had been shattered and the femoral artery severed. Brynjolfsson died four hours after the accident.

RETURNS AFTER  
LONG SERVICESamuel Gunter, Superintendent  
of Oak Bay, Resigns  
Owing to Ill Health

Samuel Gunter, for twenty-one years superintendent of Oak Bay Municipality, yesterday afternoon tendered his resignation to the municipal council, which action, he explained, has been necessitated by ill health.

Beverly Mayhew and members of the council expressed extreme regret at the loss of Mr. Gunter. They referred to his long and faithful service to the municipality and hoped that his illness would not incapacitate him for long. During his term of service with Oak Bay Mr. Gunter has been superintendent of practically all outside work. He has acted as building inspector, sanitary inspector, plumbing and sewerage inspector and general overseer of the public works department. He was also wiring inspector for the municipality prior to this work being taken over by the city.

Thomas Watt, assistant superintendent, will carry on Mr. Gunter's work for the time being.

MRS. NELLIE TAYLOR

ARTHUR J. GILLAN

Receiving congratulations to-day on the anniversary of her birth was Mrs. Nellie Taylor. She was born in London, England, but has called Canada her home for a large part of her life. September 4, 1915, is a date that will never fade from her memory and that of her husband, W. Taylor, for it was then they lost one of their two daughters under tragic circumstances. Bound for England, they were passengers on the Hesperian on the last voyage of that ill-fated liner, torpedoed off the south Irish coast, during the German submarine warfare. Under the direction of officers, she four, along with others, took their places in one of the lifeboats, but in the struggle that followed the sinking of the ship one of the little girls was washed overboard by a big wave. The parents and their remaining daughter, Dorothy, sometime later returned to Canada. In 1919 they came from Hamilton, Ont., to Victoria and now make their home at 922 Mason Street.

Arthur J. Gillan, agronomist of Gordon Head, is celebrating his birthday at his home on Shelbourne Street. Mr. Gillan cultivates many acres of homegrown produce at his Gordon Head farm. Most of his produce is shipped to Seattle, B.C., and the United States. An ardent follower of the sport of motorcycling, he is a popular member of the Victoria Motorcycle Club.

All members are asked to make a special effort to attend the next business meeting to be held this evening at 8 o'clock.

## JAMES BAY Y.P.A.

The James Bay Y.P.A. will hold its Christmas concert in the James Bay United Church, corner of Menzies and Michigan streets, at 8 o'clock to-night. The lay "The Love Parade" will be presented. The assisting artists are as follows: Miss Doris Rawlin, Mrs. James Southern, Miss Elma Morley, Mr. James Fitch, Miss Fay Ockenden, Miss Cord, and Miss Doreen. There will be no admission, but a collection will be taken to help the Christmas hamper fund of the society.

The Y.P.A. rally held on November 10 was reported a great success. A letter was received from Bishop Schofield accepting the office of patron of the local council, and appointing Rev. A. M. Acheson-Lyle, chaplain, and C. Hawkins as the member to the synd.

The final report on the Columbia Coast Mission was received. J. H. Aylwin volume was received. The report on the promotion and visiting committee of the Y.P.A. was received. The report from the auditor was read and received. Matters pertaining to the provincial conference were tabled until next meeting.

NEW LIBRARY  
TERMS SOUGHTOak Bay Council Wants New  
Agreement With City Board  
for 1934

Whether or not the Oak Bay Council will continue its agreement with the Victoria Public Library Board, unless the latter body can agree to new terms under which the municipality will pay less, appeared questionable at yesterday's meeting of the council.

Under the present agreement with the board, the council is now called upon to pay approximately \$4,000 a year for library services, according to the number of books taken out by Oak Bay readers.

The council questioned whether the spending of the ratepayers' money for such services at a time when it is needed for other purposes, was good policy, and decided that it would approach the library board with a view to arranging a new agreement. It was intimated, although not definitely decided, that failure to reach new terms with the board, might result in the termination of the agreement.

The matter came before the council in a communication from the library board requesting notice of the council's intentions for the agreement after December 31, on which date the present agreement expires. While considerable discussion took place, it was generally felt that it was a matter for consideration by next year's council.

FIND BUILDING  
WIDER THAN LOTSurveyors in Maynard Case  
Testify It Has Too Much  
in Front

James Maynard entered the witness box shortly before the court recessed for lunch to-day and testified that when he bought for \$65,000 the three-story Maynard building on Yates Street, adjoining the King Edward Hotel, he thought he was buying a building with four walls.

Under examination by his chief counsel, Mr. C. H. O'Halloran, Mr. Maynard testified that he had occupied part of the ground floor of the building for about twenty years with his shoe store and naturally assumed that when he bought the building walls on all four sides would go with it instead of just a front and rear wall leaving him with the two sides unsupported and dependent upon the buildings of his neighbors.

Mr. Maynard told how he moved quickly to buy the building because there was a real estate flurry on four years ago around the corner of Douglas and Yates streets as a result of the purchase of property there by the Metropolitan Stores and their building activities.

In the trial, which is being heard by Mr. Justice Fisher in the Supreme Court, Mr. Maynard, with Mr. O'Halloran and R. D. Harvey as his lawyers, is asking that the whole deal be cancelled and that he get his money back.

Standing as defendants in the case are Sidney Clement Galpin, Walter S. Galpin and Albert P. Brynes of London, England, trustees of the estate of Thomas Dixon of Galpin, Alfred Bull, K.C., and C. J. Prior are conducting the defence.

LOANED MONEY.  
Harry Maynard, brother of the purchaser of the building, called to the stand by Mr. O'Halloran, testified he had loaned his brother \$18,750 on a mortgage on the property in connection with the purchase. However, the mortgage had been released from this mortgage and he was now holding a note for the money, none of which had been paid back to him. He added that his brother had been plainly deceived about the westerly wall of the structure.

Martin H. Ramsay, B.C. land surveyor, gave expert evidence on the results of measurements he made. He said the building Mr. Maynard bought, with a frontage of forty feet, actually had a frontage of forty-one feet and three-quarters of an inch, while in the rear it measured forty and seven-tenths feet. He said that because of its long occupancy he accepted the wall of the King Edward Hotel as marking the boundary and from this he worked.

Ed. Williams, contractor, testified that it would cost \$4,250 to reconstruct the easterly wall and \$3,750 to reconstruct the westerly wall, and there would be also the loss through the two stores having to suspend business for at least two weeks during construction.

Fred Butterfield, B.C.L.S., told the court of the trouble in securing lines for locating lots in Victoria, as there was no map which could be appealed to with certainty, and no monuments to be relied upon. He told of searching the records at the Parliament Buildings and even the records of the Royal Engineers back to colonial days to get something to fasten to, but without success.

"So, you see, a surveyor has to make the best of it," he added.

A. S. C. Musgrave, B.C.L.S., corroborated the evidence of Mr. Butterfield. He also told of how surveys in Victoria were inaccurate, largely due to the fact that the chains and instruments the surveyors used in the early days were not accurate.

Henry L. Robinson of the Land Registry Office, testified on the official records covering the property.

The trial is continuing.

Robert C. Malcolm was elected exalted ruler of Victoria Lodge, Number 2, Benevolent and Protective Order of Elks, at the annual election of officers held yesterday evening. J. W. Lorimer is the retiring exalted ruler. The complete list of officers follows: Exalted ruler, R. C. Malcolm; leading knight, A. W. Erickson, re-elected; loyal knight, Andrew Paton; lecturing knight, Percy Payne; treasurer, A. C. Hill, re-elected; secretary, P. A. Raymond, re-elected; inner guard, Edward Cassidy; Tyler, J. H. McCloy, re-elected; and trustee, D. W. Spence.

Entry was effected by breaking a padlock on the rear door. A jimmy was used to chisel open the drawer and they left through the front door. Constable G. Graydon discovered the burglary at 2.35 o'clock this morning while patrolling the area. A suspicious looking sedan car without lights was noticed traveling along the street not far away, but an intensive search failed to locate it.

PLAN RE-UNION  
OF OLD PUPILSVictoria West School Function  
Arranged for a Week  
To-night

Memories of school days and reminiscences of the past will be revived by former pupils of Victoria West School at a grand reunion on December 15.

All who have attended the school are requested to be present at the function which will take the form of a concert and general entertainment at the school.

Efforts are being made to collect photos of as many former pupils as possible before the event a week from this evening, and those having pictures of any who took classes in the school are requested to communicate with R. T. Kipling, secretary of the Victoria West Parent-Teacher Association.

A number of invitations have been sent out, but no received one is asked to attend.

Besides affording former class mates an opportunity to enjoy again one another's company, the event will also take the form of a party in honor to Mrs. J. Kennedy, who has served the school for thirty years.

The following committee has been appointed to take charge of the function: Miss Ethel Armstrong, 403 Young Street; Miss R. Armstrong, 403 Young Street; Mrs. W. Caley, 610 Pine Street; Miss B. Daniels, 601 Baynor Avenue; Miss H. Guy, 622 Courtney Avenue; Mrs. H. Shaw, 1102 Catherine Street; C. F. Banfield, 649 Craigflower Road; R. Colby, 631 Pine Street; A. T. Hunkin, 1240 Courtney Street; H. Hurn, Victoria West School; J. Mercer, 304 Skinner Street; J. W. Spence, 726 Suffolk Street; and H. B. Witter (treasurer), Royal Bank, Victoria West.

W. F. GIBSON OF  
AHOUSAT DIESWell-known West Coast Figure  
Succumbed Suddenly  
Yesterday

W. F. Gibson, one of the best-known and most popular figures on the west coast of Vancouver Island, passed away very suddenly yesterday morning at his home at Ahousat, according to word received by friends in the city to-day. The remains are being conveyed on Mr. Gibson's boat Otter, to Victoria for services and interment, and will reach the mainland city this evening, where the funeral will be held on Monday.

Mr. Gibson was born in Ahousat, Ontario, in July, 1860, and came to British Columbia in 1880. For a number of years he was interested in mining in the Bridge River, Atlin and the Yukon. In 1910 he went to Ahousat and built a sawmill. He also established a fish reduction plant and was interested in the Herbert Arm mines.

The soul of hospitality, Mr. Gibson was well known to all who traveled along the coast, and the steamers called at Ahousat on their second night out and the passengers were entertained at a dance and social evening at Mr. Gibson's home.

He is survived by his widow, four sons, John, Clark, Gordon and Leonard, and a grandchild, all at Ahousat.

A card party will be held at the Log Cabin, Nanaimo, on Monday evening, December 18, and not on Friday, December 8, as previously reported.

# Ottawa And Chicago Score Impressive Wins In National League

## THE SPORTS MIRROR

Attitude of L.I.F.A. on Player Dealings Is Peculiar One

Fans Have Right to Know What Happens to Men on Carpet

Lack of Goals in National Hockey League Draws Criticism

FOOTBALL fans and even some of the Coast League clubs are at a loss to understand the attitude being taken by the Lower Island Football Association. Officials of the L.I.F.A. have gone on record that they will give out no information to the press on matters such as suspensions and repatriations handed out to players. The lower island members keep their mouths closed when questioned regarding action taken when players are up on the carpet. It is a peculiar stand and many followers are unable to realize the reason for so much secrecy. The L.I.F.A. is at least original in its idea as no other association that we can bring to mind takes such a stand. When questioned, the L.I.F.A. members declare such matters are association business and not news.

It seems that the fans who keep football going have a right to know what happens to players who are sent off the field or reported by the referees. If the fans see a player ordered off the field by the referee for misconduct they are naturally anxious to know what action the officials take as a disciplinary move. Despite the fact that the officials desire to observe secrecy, newspapermen continue to get the information. That's their business. To the players and one manager have been before the Lower Island board and the action taken has been printed in the columns of The Times.

Complaints of low scoring are beginning to be heard from various National Hockey League centres. The scoring has been somewhat lower in the aggregate up to this time than a similar period last year and the year before. Various reasons are being given. One is that the study of defensive measures has again exceeded the thought given to scoring plays, while others maintain the new crease around the goals is responsible. Their contention is that it is halting the jamming play and the fact that it curtails the goal getting output of such players as Nels Stewart and Harvey Jackson, who have had more score off the goal's boot-tops after driving their way through the defence to hook passes from the crease region.

Montreal Maroons, who were one of the highest scoring teams in their history last year, haven't hit their stride as yet and in their first ten games scored only eighteen goals. Last year in seven games they had found the twine for thirty counters. Montreal Canadiens have shown a little improvement. In eleven games this season they have scored twenty-one goals against ten goals for seven games last season. The Canadiens have also had fewer goals scored against them which shows that the Chabot-Hainsworth trade has worked out well in their favor. However, following this idea along it is seen that Toronto have had only fourteen goals scored against them which speaks well for Hainsworth's worth.

A glance at the figures for Chicago Black Hawks prove interesting. Manager Tommy Gorman is one who doesn't scorn defensive hockey. He was strong for that type with Ottawa and New York Americans and is again using it successfully with the Hawks. Chicago were at the foot of their section at this time last year. They are at the top this season. They have scored exactly the same number of goals, thirteen to be exact. They had seventeen scored against them last season, while twelve have got by Gardiner so far this year. The added defensive strength has put a switch in positions for the Hawks, though there is no greater scoring power. Toronto Leafs, after their nine-goal scoring spurt, are now in the same position as the other night have a better average than for the same period last season, with forty-three goals in ten games.

Winnipeg, Dec. 8.—Monarchs moved into a tie for leadership of the Manitoba Senior Amateur Hockey League here yesterday evening by defeating Falconer 4 to 1. Romeo Rivers scored three goals and Albert Lemay got one for Monarchs, while "Mud" Brunetteau scored Falconers' lone counter.

### George Leggett Gets Suspension

At Wednesday evening's meeting of the Lower Island Football Association, George Leggett, member of the Saanich Thistles first division team in the Victoria Coast Football League, was suspended until December 23 as the result of his conduct in last Saturday's match between the Thistles and Esquimalt which resulted in his being sent off the field by Referee T. M. Robb. Officials of the L.I.F.A. refused to make an announcement regarding their action but it has been learned from good authority that Leggett had been placed beyond the pale. Leggett was sent off the field by Referee Robb when he protected the awarding of a foul against him.

## GIANTS DENY MANY RUMORS

World Baseball Champions State They Will Not Trade O'Doul or Jackson

New York, Dec. 8.—Jim Tierney, secretary of the New York Giants, never will get his bag packed for the trip to Chicago next week if the rumor boys do not give him a breathing spell.

Tierney's preparations for attending the major league meetings have met with serious delays while he has been busy engaged in denying that either Francis Xavier O'Doul or Travis Jackson would be traded, or that outfielder Joe Moore's health was so precarious as to make it doubtful he would be able to take his place in left field for the world baseball champions next year.

O'Doul's name has been linked with various trade rumors but Jim says the Giants have never even considered trading or asking waivers on the veteran outfielder.

As for Moore, Tierney scouted reports that the outfielder was gravely ill. "He had a minor operation last month," Jim said, "and is almost ready to play right now."

Ed Barrow, business manager of the New York Giants, thinks the major leagues will decide to use identical balls next year. He believes the club owners, at their meetings in Chicago, will arrive at a compromise on this problem.

"A compromise is the logical thing," he said.

The difference in the two balls last year made the American League a batters' loop while the pitchers had a wide edge in the National.

Many big trades already have been swung but more probably will be announced at Chicago. The Yankees, for one, are in the market for a winning right-hand pitcher and Joe McCarthy would not look the other way if Oral Hildebrand, youthful Cleveland Indian star, should be offered him.

Seattle, Dec. 8.—The ten-round fight here between Ah Wing Lee, Portland Chinese, and Henry Woods, Yakima Negro lightweight, scheduled for December 19, has been indefinitely postponed. Promoter Nate Druxman announced to-day.

Ah Wing Lee, who lost on a technical knockout last Tuesday night at Portland to Billy Wallace, has a puffed up ear in bad shape, and his nose is bothering him. Druxman was notified.

Druxman conferred with George Adams, chairman of the Washington State Athletic Commission, and after messages had been sent to Portland, it was ruled, Druxman said, that the Chinese will not be allowed to box there until he has fulfilled his contract with Woods.

Sarnia is tonight for the most important set of all. This is the team Sarnia Imperials, champions of the O.R.F.U. hope to defeat tomorrow in the Canadian senior final. Perhaps only Sarnia itself believes Imperials will come. Imperials have been beaten once this year. In pre-schedule games they defeated University of Western Ontario at London and Montreal Wheelers at Montreal. Until St. Michael's scored a surprising triumph over Sarnia at Toronto it was a walkover.

Sarnia is confident its backfield of Hugh Stirling, Roy Brown, Norman Perry and Claude Harris can hold its own, offensively and defensively, with the great Sculler rear division. Ab Box is unlikely to gain much of an advantage, if any, over Stirling in the air.

### Senators Turn Back Division Leaders 4 to 1; Hawks Beat Maroons 3 to 1

## CANADIENS AND RANGERS IN TIE

Franklyn Ahearn, whose previous oratorical efforts have been confined to parliamentary halls, made his debut as a dressing-room irreverent as a successful Ottawa Senators coach today in a smashing 4 to 1 victory over the section-leading Toronto Maple Leafs.

Neither team had scored in their National Hockey League game yesterday evening when the handsome Ottawa president entered his team's dressing room between the first and second periods to use the old fight injector.

Adopting the methods of his fellow townsman "Old King" Clancy, whose half-time speeches have sent many a rugby team out to do or die for dear old Ottawa, Ahearn spurred the Senators to a fighting pitch that won them a split on the two second-period goals and a three-goal edge in the final session.

The Ottawa leader told his men New York reports of a merger with Americans "are absolutely wrong." His personal assurance to the players dealt the final blow to the rumors, previously spread by Frank Calder, N.H.L. president, and Frank Patrick, managing director.

The Ottawa defeat of Toronto, ending a five-game winning streak, stood out on a hockey programme that included Chicago's 3 to 1 win over Montreal Maroons and a scoreless tie between Canadiens and Rangers played in New York.

## RUGGED GAME

Leafs, who beat Ottawa by the same score in their only other meeting this season, were out in front only fifty seconds of the lightning-fast and rugged battle. Joe Primeau, polished Toronto centre, beat Billy Beveridge, early in the second period, the only Leaf who made good in his first period. Then the Roche brothers, Des and Earl, brought George Boucher's team up on even terms less than a minute later. Earl scoring on a pass from Des.

Playing before a capacity crowd of 8,000, Beveridge baffled the Leafs for the rest of the game. They peppered forty-four shots at him, compared to twenty-three George Hainsworth had to handle.

Franklin Finnigan gave Ottawa the lead in the third on a pass from Max Kaminsky, former Niagara Falls amateur, who made good in his first period. The final pair of goals came in the last four minutes of play when Toronto had four and five men up on the ice. Des Roche broke away for the first one and brother Earl duplicated the trick twenty seconds later.

Eager for the goal that tied him with Hockey Smith for section points, Des Roche broke away for the first one and brother Earl duplicated the trick twenty seconds later.

The victory gave Tommy Gorman's team a tie with Detroit for the United States section leadership. The Red Wings were idle and do not get into action again until Sunday.

There was speed skating and individual effort plenty in the Canadiens-Rangers game, but none of the consistent attacking and passing that produces goals. Chief result of the tussle was to ignore Lerne Earl's shut-outs to four and Andy Aitkenhead's to three.

Lineups and summaries follow: Montreal—Hainsworth. Toronto—Clancy, Thomas, Bailey and Kilrea. Sub—Levinson, Day, Blair, Cotton, Conacher, Primeau, Jackson, Sants and Bell.

## Jean Campbell In Fine Performance To Whip Champion

Gains Finals in City Badminton Play by Victory Over Miss Dorothy Morley

## CROWN CHAMPS THIS EVENING

Semi-finals of the city badminton championships yesterday evening at the Willows courts produced some of the best play witnessed in Victoria for some time. As usual the semis were bitterly fought and the survivors earned their positions in the finals. Yesterday evening's play brought out some unlooked-for triumphs, but only after the hardest kind of games. Jean Campbell, who has steadily improved, defeated the defending champion, Dorothy Morley in a three-set battle, 14-12, 2-11, 14-9, and Doreen Swayne scored another win over Florence Oates 11-5, 11-5 to reach the final round against Miss Campbell. Drennan Hinks successfully repulsed the efforts of Des Bleasdale, 15-7, 15-7, in one men's singles semi-final, and Harry Webb decisively defeated Campbell Logan, 15-8, 15-10, to fill out the final bracket. Hinks is defending champion. All finals will be played to-night at 7:30 o'clock.

In the men's doubles, Harry Webb and Reg Corfield, upset predictions when they beat George Phillips and Campbell Logan, in the best match of the men's division yet produced. The scores were 15-10, 15-15, 15-13. Peter Phillips and Drennan Hinks were also carried to an extra set before they won from Ralph Bagley and Pat Colclough, who formed an excellent defence against the top-seeded pair. The scores were 6-15, 15-4, 15-9.

The women's semi-finals were played on Wednesday evening and in to-night's final, Florence Oates and Doreen Swayne, will oppose Mona Mies and Jean Campbell.

A GOOD NIGHT  
The open mixed doubles semi-final brought out a very good match when Miss Miller and Hinks were extended to defeat the Garrison club champions, Miss Nichol and Rose Hocking, who gave the winners their best game since the city championships were inaugurated. Each team won a set and the battle was very even up to eight-all in the third, when the winners speeded up their offence and secured seven points to end the match. The other semi-final was won by Miss M. Campbell and Colclough, who defeated Marjorie Hughes and Ralph Bagley, in straight sets, 15-3, 15-7.

In addition to the above matches, set for to-night, there will be a full programme of handicap final and junior events. Nation and Roberts will meet at 9 o'clock for the city junior title, while at 8 o'clock, Beatrice Baker, formerly of Strathcona Lodge School, will meet Peggy MacDonald of the Willows club for the girls' title.

Yesterday's results and to-night's draw follow:  
MEN'S OPEN SINGLES  
Semi-finals  
D. Hicks won from D. B. Bleasdale, 15-7, 15-7.  
H. Webb won from C. Logan, 15-8, 15-10.

WOMEN'S OPEN SINGLES  
Semi-finals  
Miss Doreen Swayne won from Miss F. Oates, 11-5, 11-5.  
Miss Jean Campbell won from Miss D. Morley, 14-12, 2-11, 14-9.

OPEN MIXED DOUBLES  
Semi-finals  
Miss M. Campbell and Colclough won from Miss M. Hughes and Bagley, 15-3, 15-7.  
Miss M. Miller and Hinks won from Miss H. Nicholson and Hocking, 15-7, 6-15, 15-8.

MEN'S OPEN DOUBLES  
Semi-finals  
Hinks and J. F. Phillips won from Colclough and Bagley, 6-15, 15-8, 15-10.  
Webb and Corfield won from G. W. Phillips and Logan, 15-10, 13-15, 15-10.

## Hunk Anderson To Be Replaced

South Bend, Ind., Dec. 8.—Elmer Layden, one of the "Four Horsemen," will replace Hunk Anderson as head football coach at Notre Dame University next fall as the result of a drastic shake-up of the Notre Dame athletic staff. Jess Harper also will retire as director of athletics.

## MUCH BETTING AT TANFORAN

Machines Pass Through \$1,485,053 During Twenty-nine Days; Handicap to Be Held To-morrow

San Bruno, Calif., Dec. 8.—Racing fans have wagered \$1,485,053 during the first twenty-nine days of the forty-day flat meeting at the Tanforan track. This figure is up to and including the racing of December 5.

It is expected that the total figure for the meeting will top \$2,000,000. The State of California has already received \$51,208.72 as its share of revenue from the pari-mutuel machines.

The daily pari-mutuel "handle" has steadily increased. The rise has not been by leaps and bounds, but is steady and reflects a mounting interest in the sport at this season.

The average daily "handle" for the first twenty-nine days is \$51,208.72. The top "handle" was \$92,592 on Community Chest Day, when the entire proceeds were donated to the San Francisco Community Chest.

Two important handicaps will be run on the remaining Saturdays at the meeting. These two days are expected to swell materially the pari-mutuel figures.

Ten thoroughbreds have been nominated for the \$1,500 added Golden Gate Handicap at a mile and one-eighth, to-morrow. The \$5,000 added San Francisco Handicap will wind up the meeting, December 16.

The thoroughbreds which are slated to clash in the Golden Gate Handicap include Toralca, Trombone, Guardrail, Golden Tide, Prince Pest, Boardwalk, Bonny Grafton, Bahamas and Boy Painter.

Jimmy Suro was received, but he is not on the grounds.  
A supporting attraction at two miles is being arranged for to-morrow by Racing Secretary Jack B. Campbell.

## DETROIT IN FIRST SLOT

Olympics Defeat Buffalo 2 to 1 to Take Undisputed Lead in Monor Hockey

Detroit, Mich., Dec. 8.—Two goals which came within forty seconds in the second period, gave Detroit Olympics a 2 to 1 victory here yesterday evening over Buffalo Bisons and the undisputed leadership of the International Hockey League.

Detroit's margin of victory came on goals by Mitchell and Starr, while Keating scored for the Bisons in the first period. The game, listless in the opening period, provided some fast rough hockey in the second and third stanzas. Mickey Ion headed out only six penalties, four to the Bisons.

SUMMARY  
First period—1, Buffalo, Keating (Hollister), 2:15. Penalties, Tedas and Mitchell.  
Second period—2, Detroit, Mitchell, 7:00; 3, Detroit, Starr (Marker), 7:40. Penalties, Hollister, Marker, Conway.  
Third period—No score. Penalties, Vail, Newman.

## KLEIN WAS MOST EFFECTIVE BATTER IN NATIONAL LOOP

League's Leading Batsman in Recent Season Hit Into Only Three Double Plays; Drove in 120 Runs to Lead in That Department; Ott Best Walker

New York, Dec. 8.—For the third successive year, Chuck Klein topped the National Baseball League in slugging during 1933 and also led all rivals in batting effectiveness, a department compiled for the first time by hitting into only three double plays.

The Phillies' outfield ace, traded to Chicago Cubs during the off-season, compiled a slugging average of .602, the league's official "miscellaneous record," made public to-day, revealed. Holder of the league batting championship, Klein compiled his winning slugging percentage with 365 total bases in 666 times at bat. He drove in 120 runs to lead in another department, drew fifty-six walks and struck out thirty-six times.

Met Ott, New York Giants, drew the most walks, seventy-five, to top that list for the second year in a row, while Johnny Frederick, Brooklyn, fanned only fourteen times in 147 games, for the best record in that respect. The Cubs were by far the best home club but the Giants topped them all on the road.

Promise of Keen Fight for Rep Team Berths Made by Leading Local Players

**FOUR LEAGUE GAMES BILLED**

In the cozy confines of the Canadian Scottish mess this week-end's three most important figures in local rugby will gather to-morrow evening after the rep team trial game at the Athletic Park, and after their deliberations will be made known the chosen fifteen selected to defend the McKechnie Cup for Victoria against Vancouver on Boxing Day.

It is a tall order imposed upon the trio, and not until they have watched the boys in their big trial will they know which players will be given berths. To-day members of the group announced not one man was sure of a place until after the test.

If they want a hard tackling full-back with good kicking ability, Ted Colgate of the Scottish may get the call. But if they put greater store in a more experienced man with a genius for turning defensive clearances into openings for attacks it looks as if Roddy McInnes of the Gunners may be chosen. But both will have to be at the top of their games.

**STRONG PROBABILITIES**  
Three strong probabilities for the three-quarter line appear to be Brian Hunning and Pete Turgoose of the James Bay Athletic Association and Charlie McDonald of the Navy. All have stood up well under fire in former McKechnie Cup battles, and are good on the attack and defence. Should they be chosen, the battle for fourth man would be extremely keen. Joe Addison, Bays wing, has speed and ball carrying ability. But so has Chuck Copehead of the Scottish, while Jack Hine, also of the Scottish, after a lay-off last season, has returned to some of the driving form that earned him his berth on previous all-star squads.

With indications pointing to the withdrawal of young Paul Rowe, Fifth Brigade backfield man, from the list of probabilities, Bobby Tye, play-making forward, may be called upon to fill the gap.

If Buzz Brown of the Bays shows up well in to-morrow's game, he may retain his place as stand-off half, although the naming of Bill Locke for that post would add years of experience to the team. Should Locke decline the position or not get the call, he would be a very valuable man on the coaching staff for the backfield.

Wally Spence, Gunners, is regarded in many circles as a highly possible successor to Harry Robson immediately behind the scrum.

**SCRUM PROSPECTS**  
Among the forwards, Bill Wharton, of the Garrison, is well thought of as a hook; Bert Barker, of the Navy, is aggressive and powerful; Bill Robinson, of the Bays, has plenty of experience and a good knowledge of the game; Ted May, of the Scottish, has proved his worth in many earlier games; Bob Engelson, of the Gunners, is quick on the break, down on the play and dependable on the defence; Harry Peard, of the Bays, has shown considerable prowess in league fixtures, and Dudley King, of the Wanderers, showed a good fighting spirit in many games last season.

Don Dowell and Ed de Blaquiere, of the Gunners, have shown themselves to be good scorers in league play. Unless the boys fall far short of their usual standard it will be a hard job facing the selectors.

Only senior B and intermediate fixtures will divert interest from the Athletic Park, where the rep prospects will stage their game, starting at 2:45 o'clock. All reserves are requested to turn out in strip for the fixture.

**LEAGUE GAMES**  
At Work Point Barracks the Garrison and the Tommies will engage in a little game, while the Fifth Brigade and the Navy play at the Navy grounds in the other match in that division.

Victoria College boys are slated to play the Wanderers at Oak Bay Park, while the Fifth Brigade tangles with the J.B.A.A. at the Canteen grounds in the intermediate league.

Some of the teams for to-morrow's games follow:

Oak Bay Wanderers Intermediates—Williams, Weight, Laver, Barnes, Shepherd, Letta, McCann, Angus, Overton, Nation, Leckie, Ewing, Pangman, R. Shepherd, Linklater and Gorman; reserves, Gray and Gorman.

James Bay Athletic Association Intermediates—Stoney, Bryden, Winsby, Painter, Coles, Hayward, Carmichael, Paterson, W. Colvin, Woodward, Noel, Rich, J. Fisher, Drummond and D. Fisher; reserves, Widdell and Stuart.

Fifth Brigade Intermediates—Shanks, Lacey, Shepherd, Anderson, Kirkbride, Barker, Langdon, Thorson, Piddington, Barlow, McLean, Saunders, Carney, Cower, Bray, Palmer and Gonnason. The teams are requested to meet at the Armories at 2 o'clock.

## Impressive Record Held by Shawnigan Lake Rugger

Considered in authoritative circles one of the finest school rugby teams ever developed on the island, the Shawnigan Lake School first fifteen is shown above. The clever squad which carries the colors of C. W. Lonsdale's school and is coached by Captain E. D. W. Leven, has gone through two seasons defeating consistently fifteen from Brentwood College and the University School and has added the scalps of the Wanderers and other local teams to its collection. To-morrow the Shawnigan boys journey to Vancouver to play Lord Byng High School, winner of the High School League in the Terminal City. Consideration is being given to a suggestion to have the boys play an exhibition game in Victoria against some prominent intermediate team prior to a major match. The players shown in the picture, follow: Back row, left to right, A. T. Rogers, J. C. Campbell, C. H. Wilson, J. R. Maybee, J. D. Rochford, J. S. Humphreys and W. D. Woodward; sitting, left to right, J. S. Bird, G. S. Covernton, J. F. Mackie, captain; R. E. Homer-Dixon and D. A. Dawson; sitting in front are P. F. Fullen, J. C. Whittle and G. W. Reed.

## AMERKS SIGN NEW PLAYERS

New York N.H.L. Club Secures "Red" Doran and Allen Murray for Defence

New York, Dec. 8.—New York Americans of the National Hockey League yesterday announced the acquisition of two new defence players to replace Lauder (Duke) Dutkowsky, formerly of Regina, and Chris Speyer.

The newcomers are John (Red) Doran, from Quebec Beavers, of the Canadian-American League, and Allen Murray, from Syracuse Stars, of the International League. Both Dutkowsky and Speyer will be sent to Syracuse.

Both of the newcomers are products of amateur hockey in the Toronto district. Doran, Americans' fifth "red," broke into professional ranks with New Haven Eagles, while Murray started his pro career with Buffalo Bisons.

Wednesday, Simpson told of successful negotiations with Connery Smythe for the services of Benny Grant, Leafs spare goalkeeper, to replace Maurice Roberts of the Cleveland International loop team.

Doran may team up with "Red" Dutkowsky to form a tough "red" line.

## CHINESE DEFEAT Y.M.C.A. JUNIORS

Dropping in two baskets, to their opponents' one, Chinese Students hung up a 42 to 22 victory over the Y.M.C.A. as they opened the second half of the junior Sunday School Basketball League at Centennial gym yesterday evening.

In an exhibition fixture, Lake Hill Intermediates defeated the Chinese Students' Intermediate B squad 32 to 22.

George Lowe was high scorer for the students in the junior clash.

Scores follow:

## Peden-LePage Are In First Position

Victoria Rider and Partner Hold Lap Lead in Cleveland Bike Race

Cleveland, Dec. 8.—Thirty-six hours of racing under their belts and 580 miles of wear and tear written into their tires, eleven teams in the six-day international bicycle race to-day had piled up a total of eighty-one laps which had been stolen.

Torchy Peden, the "Victoria Express," and his Montreal partner, Henri LePage, were still leading by a lap.

The Horan-Petri combination had moved up since yesterday evening from fifth to third place.

In late midnight sprints Andy and Bartel tangled handlebars on a turn, and the former had to be carried to his cot. He was ready, however, to take his turn on the bike a few hours later.

Standings this morning follow:

## Sunderland Will Act As Hosts To Leading Arsenal

Clash To-morrow in Feature Game on English Soccer Card; Cup-ties Billed

**Motherwell Will Meet Ayr United**

London, Dec. 8.—The Arsenal, leading the English Football League of which the team was champion last year, travel to Sunderland to-morrow for the feature match of the first division. Dunne has resumed training and Dowden may also be available.

Meanwhile, Tottenham, displaced from leadership by the champions two weeks ago, entertain Birmingham. The Spurs will rest O'Callaghan, using Howe in his place, but otherwise the team will be unchanged.

Birmingham has signed on Sydney Moffat, son of the Oldhamite who played for England against Wales in 1913. Spurs are three points back of Arsenal.

Derby County and Rotherham deadlocked for third position, each have fairly tough opponents, the former traveling to Aston Villa, while Rotherham is at home to Middlesbrough. Leicester, at home to West Bromwich, has been switching its forward line and will try Davis, centre-forward signed on from Nuneaton.

**EVERTON WITHOUT DEAN**  
Everton, without the services of famous "Dixie" Dean, operated on for removal of a cartilage from his left knee, has signed on Max Bell, nephew of the famous Billy Meredith.

Grimsby Town, the second division leader, taken on Southampton. Hull City, which goes to Preston North End, has made no fewer than seven changes in positions. Brentford will be at full strength against Millwall, with the return of J. C. Burns. Bolton Wanderers, drawn at home against Swansea, have signed on George Taylor, the Notts County outside-right, after trying five players at this position. Taylor, a great shooter, has scored fifty goals for Notts.

**CUP MATCHES**  
The third division schedules will be interrupted again by the second round proper of the cup competition to-morrow. Of the thirty-four teams in the second round, twenty-eight are drawn from the respective sections of the third division. The survivors will get into the third round when the competition starts in earnest, with the clubs of the first and second divisions joining the play.

Queen's Park Rangers meet New Brighton in one of the feature cup battles and in another Crystal Palace travel to Stockport County's grounds.

Glasgow, Scotland, Dec. 8.—Glasgow Rangers, champions of the Scottish Football League, look to have a right royal chance to-morrow of cutting up Motherwell's lead down to reasonable proportions. Motherwell, topping the first division all season, stuck up against the smart Ayr United eleven, holding third place, while Rangers, five points behind Motherwell in second place, entertain the lowly Queen's Park Rangers.

Another feature battle will bring together Aberdeen and Hearts, respectively holding fourth and fifth places. Dunfermline, holding a slim lead in the second division, will have a mighty tussle with Stenhousemuir, only a point further down in the standings.

## TOTHILL WILL OPPOSE IRISH

Canadian English Billiards Champion to Perform in Match Here To-night

Followers of English billiards will have the opportunity of watching one of the finest players in Canada in action to-night when Tom Tothill, holders of the Canadian championship, meets Bert Irish, Victoria, British Columbia titleholder, in an exhibition match at the Metropolitan Billiard Parlor, Yates Street.

Play will commence at 8 o'clock with Tothill playing 800 points to Irish's 600. The Victoria star has been practicing hard for the last two weeks, and is hoping to give the national champion a stiff run, with the aid of the 200 point spot.

Is Boys' Lack of Money Reason Girls Lack Beau? Secret Marriage Going on Rocks—If a Girl Is Good Does It Matter if She Looks Bad to the Neighbors?

DEAR MISS DIX—Girls are always asking why they are not popular with men, and don't have dates. May a mere man answer that question and say that the reason is economy? It is because the boys don't have the money to take the girls out. When their pockets are flat they go to the pool-room or the devil and the girls play wallflower or stay at home and croch- et. Let us hope that the end of the financial depression will also end the depression in dates. Nature tends twenty-one boys into the world every time she sends twenty girls—'t so there are plenty to go around.

HENRY GEORGE.

Answer: So there are, but, alas, it seems that the distribution of beaux is no more even than the distribution of wealth. Some girls get more than their share, while other girls get none. There are women who are millionaires in love and other women who are paupers, even as there are in money.

Why this is thus, no one knows. Nor does any one know why it is that some women have the power of attracting men, while other women lack it, any more than they know why some men have the ability to make money and other men do not possess it. It is just a gift.

You see girls who are pretty and well educated and well dressed and good dancers and who have nice homes and parents who entertain for them, yet whom the boys all pass by. And you see plain girls and Dumb Brides and shabby girls whom the men flock around, whose dances are cut to pieces and who are dated up weeks ahead and who can, and do, marry as often as the law permits.

There are men who could make a fortune if placed on a barren rock in the ocean with only the fish to trade with, and there are girls who seem to conjure men out of the earth wherever they go and who would be given a rush and have dates even in a spinster's retreat.

And there doesn't seem anything to do about it, nor any remedy for it, unless after the NRA has got everybody employed and with a comfortable income it will turn its attention to the beaus and girls and provide them with dates.

Of course, the lack of money has cramped the style of a lot of boys, but it doesn't wholly account for the Jans who are wallflowers because these girls, as a general thing, have good homes and well-filled iceboxes and mothers who were champion cakemakers and about the cheapest diversion a lad could indulge in was going to see Sally or Maria. And he hasn't done it. Even the bait of a square meal hasn't tempted him. One would have thought that the depression would have boomed the home girl's stock, but it hasn't.

The girl who had beaux in good times has had them in bad. Perhaps she hasn't been taken out to places of amusement so often, but boys have samped on her doorstep and danced to the radio in her parlor, and if they haven't brought her as much candy they haven't stinted her in sweet talk.

And there you are.

DOROTHY DIX.

DEAR MISS DIX—I am a college student. I was secretly married the summer after my freshman year to a girl with whom I am still deeply in love. Everything went smoothly through my sophomore years and she was willing that I should go back to college and finish my course, but last summer she wanted me to give up school and go to work. I refused, as I have made for myself a wonderful place in college, both in my studies and athletics. We had an awful quarrel over it and she wants a divorce. What shall I do about it?

Answer: How much longer will it take to complete your formal education? If you have only another year, beg her to be patient and wait a little longer for you. Tell her how much better you will be able to provide for her if you have fitted yourself for some definite occupation instead of having to take any work that the untrained can get.

But because you have made one terrible mistake in your life, don't add another one to it by giving up your schooling and the broader opportunities it offers you. It will wreck your career, and it will not secure the happiness for the girl, because you will not be satisfied with the meagre amount of money you will be able to earn in the kind of jobs that are open to untrained boys.

Nothing else on earth is more tragic and more pitiful than school boy and girl marriages. One could weep over the poor children who wreck their lives before they have fairly begun by taking upon their shoulders loads that they are too weak to bear, who assume responsibilities whose far-reaching consequences they are too ignorant even to imagine.

No one can make them understand that they are too young and immature to know what they want of life. No one can make them believe that their tastes are changing continually and that the toy they cry their eyes out for one day will bore them to tears the next. No one can convince them that a hobbledehoy crush isn't a deathless passion, and so they rush into marriages that they spend the balance of their days regretting.

Such is your case. You cannot blame the girl you have married for rebelling at the position she is in as a secret wife and feeling that you should qualify as a husband and support her or else set her free.

Yet in order to do this you have to handicap your future and give up doing the things you want to do. And, anyway, the shine has all worn off of the wedding ring and you don't look as good to each other as you did and you have got a little tired of each other and yet you are tied tight and fast by the marriage bond.

What a mess. And how almost surely secret marriages end that way. They say that matches are made in heaven, but school girl and boy ones are manufactured in the other place by fiends.

## NOT SO EASY

(Continued from Page 14)

But even the greatest of us are apt to exceed the limit at times, and subtle humor, when it gets too deep may turn out to be a practical joke.

This thought is suggested by the inclusion in to-night's column of an apparently serious statement cut from The New Republic to the effect that it is a most excellent thing to have 30,000,000 people in the United States without any source of income because they are "consumers"; because they serve an "economic function"; because they "help to support industry"; and because they "keep real estate values from collapsing."

This superficial and wholly fallacious line of reasoning is not trotted out by "H. B. W." as low comedy, but is described as "economics."

In order to make the fallacy clear to the average reader, let us suppose that the 30,000,000 paupers (who are at present so admirably fulfilling the "economic function" or "consumers" a large proportion of the wealth produced by the 70,000,000 who are working) should be increased to 50,000,000. It will be readily seen that the remaining 1,000,000 workers could not fail to become even more prosperous, seeing that they would have such a large number of clients of non-producing consumers.

It is only by thus reducing the thing to its ultimate absurdity that it can be made clear to the large numbers of people who think they are studying "economics" that none of the nostrums proposed by amateur reformers can be expected to solve unemployment.

Neither currency reforms nor tariff reduction nor the institution of a central bank could alone produce any better results than paying people to remain permanently idle, or even shipping them by the million on to farms to support themselves.

But though there are a hundred angles to it, the problem is insoluble. However, that is another story.

GUNS GREET  
FISH BOAT

Ketchikan, Dec. 8.—A warm reception greeted the seiner Yellowstone when it pulled into the little fishing settlement Myers Chuck, about thirty miles north of here.  
It was so warm, Captain A. Strand reported to-day, that he left right away and came back here to get a guard dog. Bound there, the seiner herring, the Yellowstone had no sooner arrived in the harbor than all the residents put out in rowboats. Surrounding the boat, Capt. Strand said, they displayed guns, and ordered him to leave.  
One man aimed a gun at the captain, but a woman knocked it down with an arm.  
The Myers Chuck people seem to want the herring for themselves," he said.  
The Yellowstone will return with a coastguard boat as convoy.

Flew 1,094 Miles in Brazil  
To-day; Reports State  
Lindbergh Will Explore the  
Jungles of Amazon River

Para, Brazil, Dec. 8.—Colonel and Mrs. Charles A. Lindbergh landed their monoplane here at 1:30 p.m. E.S.T. to-day after a flight from Natal. When the Lindberghs landed here they had covered 1,094 miles from Natal. More than 3,000 miles still lie between them and Miami.

Colonel and Mrs. Lindbergh made flight from Natal in seven hours twenty-one minutes, flying at an average speed of 148.8 miles an hour. Pan-American Airways maintains large repair shops at Para and it was believed likely Col. Lindbergh would have his plane gone over there before proceeding on his trip.

Fortaleza, Ceara, Brazil, Dec. 8.—The big red monoplane of Colonel Charles A. Lindbergh passed over here at 10:04 a.m. Brazilian time (5:04 a.m. Victoria time), in a northerly direction. The Lindberghs had been out of Natal about 10:00 a.m. local time.

Fortaleza, or Ceara, the capital of the state of Ceara, lies approximately 300 miles northwest of Natal. Natal, Brazil, Dec. 8.—Colonel and Mrs. Charles A. Lindbergh hopped for Miami, Fla., in their big red monoplane to-day at 8:15 a.m. local time, (12:15 a.m. Victoria time).

Their route, it was indicated, lay by way of Para (Belém) Brazil, and thence northward along the South American coast.

They left after thirty-two hours in Natal, when they flew from Bathurst, West Africa.

Accompanied by the British consul, Robert Scottbrooke, who with his wife and daughter, accompanied the Lindberghs to the consulate to the docks.

Brazilians gave them a noisy farewell, boarding a launch, they were taken out to their plane while police held back the crowds lining the river's edge.

It was an uneventful take-off. Col. Lindbergh inspected the plane, tried the motor and they were away easily.

Rio de Janeiro, Dec. 8.—Unconfirmed reports were received here to-day that Col. Charles A. Lindbergh intends to fly to-morrow towards the headwaters of the Amazon River, far into the relatively unexplored interior of South America.

It was said Lindbergh intends to spend a month in the jungle hunting for the "lost" white Pigmy tribes. No indication was given as to whether the "purported" trip would include Mrs. Lindbergh.

TO SHIP LIQUOR FROM VICTORIA  
Vancouver, Dec. 8.—Two thousand cases of liquor from United Distilleries at Seattle were shipped to-day to Victoria for transshipment to San Francisco by the Emma Alexander.

It was revealed by distillers here. Movement of liquor from British Columbia Distilleries Ltd. at Port Westminister was also expected to start to-day under United States permit.

Officials indicated that liquor from United Distilleries already on hand in Seattle, distributed by a wholesale drug firm after purchase two days ago. It was also said a carload of liquors left Seattle for Victoria to-day.

With 4,500,000 gallons of rye and bourbon whiskey in store at the two British Columbia plants, it is believed small monthly shipments of these stocks are absorbed by the United States market.

## SAYS OCEAN TRAVEL GOOD

North German Lloyd Official Says Many People Going to Europe for Christmas

On one of his periodical business visits to "transportation row," H. W. Mahler, district passenger agent for the North German Lloyd, was in the city this morning. He arrived from Vancouver and left again this afternoon on his return to the mainland.

He spent the morning visiting the various transportation men in Victoria, all of whom are representatives of his company. He said business this season had been fairly good and that no complaints should be forthcoming.

Many Canadians have gone to Europe for Christmas this year, he reported, and the German liners sailing from New York have had many representatives of western Canada. The liner Bremen, sailing from New York to Europe, was the last German ship to reach the other side for Christmas.

Mr. Mahler said a party of Vancouver people will shortly leave to make connections with this sailing. They will leave Vancouver next Monday, December 11, go aboard the Europa at Seattle, and reach Southampton December 21 and be in London that evening.

Mr. Mahler told of the cruise to the Mediterranean of the German liner Columbus, which will leave New York February 10 and will visit Madeira, Morocco, Gibraltar, Algeria, Monaco, Naples, Rome, Athens, Egypt, the Greek Islands, Turkey ports, the Ionian Islands, Dalmatia, Venice, Sicily, Malta, the French Riviera, Paris and Cherbourg, returning to New York the middle of April.

This cruise will be under the personal direction of James Boring, widely known as an author and lecturer. It will be one of the widest and longest cruises of the Mediterranean ever undertaken.

## LINERS WILL CRUISE WORLD

Empress of Britain, Franconia and Resolute Will Make Voyage Around Globe

Three personally conducted voyages around the world will be taken this year aboard three great liners, local transportation officials have been advised. All will leave New York next month, and expect to sail with large lists of passengers.

Starting around the world on her third annual voyage, the Canadian liner Empress of Britain will leave New York January 4 and cross the Atlantic to the Madeira Islands. She will then go through the Mediterranean, call at numerous ports in a score of countries, and will proceed through the Red Sea to India and will call at out-of-the-way ports in Java and Sumatra. Then she will return to New York.

The Empress of Britain will be followed by the Empress of Japan, which will leave New York January 11 and will call at numerous ports in the Pacific and Indian Oceans, and will return to New York May 16.

AT CALIFORNIA  
Pacific Coast residents may again travel through the Panama Canal to England and the Empire of Britain next spring. She will leave San Francisco on this lap of her voyage, on April 26 and will reach Southampton about a month later.

An elaborate programme of shore-side trips has been prepared for the passengers aboard the British. They will see all the famous points of interest in all the countries at which the great white flagship will call.

Going a different way around the world will be the Cunard cruise liner Franconia, which will sail from New York January 9 and go first through the Panama Canal to California ports, sailing from Los Angeles harbor January 24 and proceeding to Honolulu and the South Sea Islands, route to New Zealand and Australia. She will then go to New Guinea, the lesser Sunda Islands, the Philippine Islands, Java, the Straits Settlements, India, Ceylon, South Africa, Zanzibar, South America and up the coast to Barnard.

ending her cruise at New York May 31. The German liner Resolute will again cruise around the world this year, leaving New York January 14 and following the same itinerary as the Empress of Britain.

## REVOLT SCENE

Rebellious Prisoners Put in Irons After Attempt on Ss. La Martiniere

Algiers, Algeria, Dec. 8.—Two or three convicts aboard the convict ship La Martiniere, en route to the French prison colony in Guiana, attempted to revolt against their guards on the passage between St. Martin de Re and Algiers. It was announced to-day.

Reports that forty prisoners had been killed in a general mutiny were denied. The rebellious prisoners were put in irons.

There were 280 convicts aboard the vessel when she left France, bound for the "dry gullies" of French Guiana. The human cargo was crammed into heavily barred cages.

Gathered mostly from France's far-flung colonies of Africa and the Orient, the exact convicts included Hindus, Arabs and Chinese, black men, brown and yellow mingled with Europeans of assorted nationalities convicted of crimes committed on French soil.

The voyage nominally takes fourteen days. The prisoners are watched with the utmost vigilance to prevent an outbreak of violence.

Forty guards watch their movements day and night. Live steam is kept in overhead pipes, to be turned on the prisoners in case of emergency.

The vessel La Martiniere made a previous voyage to the convict colony this year with a load of prisoners.

## THREE SHIPS FREE AGAIN

Quebec, Dec. 8.—Three vessels which yesterday stranded in Lake St. Peter had been released this morning and reached Three Rivers where they were anchored during the hours of darkness.

The vessels concerned are the Nid-arholm, Norwegian steamer en route from Montreal to London; the Osele, Swedish ship en route from Montreal to Botwood, Nfld.; and the Tran, Norwegian steamer en route from the Great Lakes overseas.

They stranded when a large section of the broke adrift and forced them out of the ship channel. Through the combined efforts of the icebreakers and the local tug boats, the vessels were worked back into the channel. It was understood they were not damaged.

## Vancover Shipping

Vancouver, Dec. 8.—Dale and Company reports the freighter Langford in port to load grain and general cargo for United Kingdom. The company also reports Ss. Somersby due December 11, and Ss. Grimsby due December 19 to load grain for Europe.

Empire Shipping Company Limited reports Ss. Talibus Mary and Ss. Colina, out yesterday from Vancouver. Mr. Innaren sailed from New Westminster yesterday for Australia.

The Cellina, one of the big passenger-express vessels of the Italian line, is to shift to Britannia, Beach to load 3,000 tons of copper concentrates for southern France.

Ms. Hoyanger will arrive December 15 to Empire Agency to discharge a considerable shipment from South America, and to load wheat, paper and pulp from British Columbia for the southern hemisphere market.

Word was received here to-day that Robert McBride, forty-three, steamship agent, Portland, Oregon, died Wednesday night in hospital at Salem. He had been injured received in an automobile accident. His car collided in a blinding rainstorm, with a car driven by C. R. Moon of Woodburn.

## Airplane Frightens Costa Rica Natives

New York, Dec. 8.—The little shepherds of Costa Rica has returned to his tribal hills, convinced all men are liars.

Me's an Indian boy of twelve, a prince among his people—far hidden in the Costa Rican mountains since Costa Rica dove them from home and plundered the civilization of a vanishing race.

The boy's story came here in a routine report to headquarters of the Pan-American Airways from the operator of a shuttle plane from the east coast of San Jose, the capital.

Every day Sab Sullivan, a big Irish flier, took his plane over the mountains, never realizing the flights were spreading terror and wonder among the hill tribes.

They hid in holes when the plane first came over, and it was days before they ventured out to study it. The wise man held a conference.

They decided it was the Great Spirit's eye that swung daily across the world on a pendulum, watching the beings on the sun had created.

Then the twelve-year-old shepherd, who studied the "thunderbird" while his herds grazed. Eventually he announced his departure to San Jose to seek knowledge of the strange thing. His kinsmen were alarmed when he went alone on the perilous journey.

At San Jose, he learned the thing was a machine and that a man flew in it, so he sought out the man and pilot Sullivan with questions.

Every move the pilot made the Indian watched in rapt admiration. He slept near the ship, fondled it and always was on hand when Sullivan took off and returned.

Then one evening Sullivan told the lad to "come with me into town and I'll show you pictures that move and talk."

The boy's eyes grew wide. He backed away from Sullivan—horror on his face. "No," the boy said, "You are not the great wise man, was wrong. The wise man wouldn't lie. You can't expect me to believe everything." He fled back to his herd and kinsmen.

## Famous Names On Coast Ship

Passengers who sailed from San Francisco for Victoria Tuesday afternoon aboard the Ss. Emma Alexander scanned the list of their fellow travelers and decided they were voyaging with one of the greatest financiers in the world.

J. P. Morgan was down on the passenger list, but after a few hours, during which the purser's office was besieged with inquiries, it was learned that it was not the famous New York millionaire at all, but a business man from New York, bearing the same name and the same initials.

Wherever he goes, Mr. Morgan says, people stare at him to see if he is the New York financier. He is not even a relation, as far as he knows, he stated.

Several notable names were down on the Emma Alexander's passenger list when she arrived here, but none had any connection with the people who have made those names famous. There were people by the name of Rothschild aboard. This family is one of the most famous in American and European finance. A Miss Jawley was also aboard, but she was no relation to Wanda Jawley, the Hollywood actress. There was also a Miss M. Wagner, but she, said she was only distantly connected with the great German composer of operas.
